

RESOURCE GUIDE

The organizations, programs and services in this guide change continually during the year. The purpose of this directory is to provide a starting point in your search for information. Always refer to your local Area Agency on Aging for a complete listing of services for your area.

AREA AGENCIES ON AGING

Indiana Area Agencies on Aging offer advocacy, planning, services and funding that make a difference in the lives of older adults—from the frail older person who is able to remain at home if they receive the right services to those who are healthy and can benefit from activities and socialization provided by community-based programs. Contact the Area agency in your county for more information.
