

South Central Indiana REMC

is committed to protecting and preserving the environment. The Go Green Committee was formed by SCI REMC employees in 2008 to find ways to be more environmentally responsible both as a company and a community. Besides hosting an informative website, www.gogreen.coop, SCI REMC employees recycle their paper, cardboard, cans, and other items used in the office. The co-op also collects cell phones and tablets from employees and the public, which are recycled for money that is then donated to non-profit community groups.

*Above
SCI REMC Go Green Committee members
visit the residents of the Morgan County
Humane Society and donate money from the
recycled materials employees collected at the
office and cashed in.*

For more recycling information in
your area, contact your local solid
waste Management District:
