Welcome to the show

Please:

★ Turn off all cell phones.
★ No entrance before 7:15 a.m.
★ Enter and exit through designated doors during lunch.
★ Wear proper footwear - No flip flops.
★ Be on time.
★ Pick up after yourselves.
★ Do not vandalize the premises.
★ Appropriately use calculators.
★ Absolutely no changing of schedules.
★ Buckle up! Project Ignition is watching.
★ Exit the parking lot onto Indiana Street.
★ Stay seated until announcements are over.
★ Stand for the Pledge of Allegiance.
One word that could describe the daily life of a Mooresville High School student could be adventure. When someone reminisces on their favorite high school memories, it could very well reflect a scene from "Without a Paddle" or maybe the final dual in "Pirates of the Caribbean." Nonetheless, high school in itself can be an adventure for the average student. A success for one student may be winning the race to be first in the lunch line or conquering the battle to get to class on time.
Plunging Traditions

by: Jessica McCauley

Homecoming was an event that many students at Mooresville High School looked forward to as the first major event of the year. It was a time when everybody in the school came together and showed school spirit. Homecoming 2004 broke some old traditions and carried on some new ones.

For as long as most seniors can remember, the powderpuff game between juniors and seniors was always won by the senior class. However, juniors overcame the losing streak by beating the seniors. Much of the senior class felt they had lost something they earned. "I felt like we got ripped off and cheated out of the game. Franklin seemed like he let the juniors win because he wanted them to. We should have won," said senior Lamber Enochs. Mr. Jeff Franklin, social studies, was one of the referees but said that he did not call the game in favor of anyone. "I understand very clearly their frustration. People will search for answers for why the score came out the way it did," he said.

The freshman class earned bragging rights by beating the sophomores in the powderpuff game and beating out seniors for first place in the float building competition.

Still suffering from the loss of senior paddles, the seniors bounced back by bringing "Senior Plungers" as a more harmless alternative to paddles. Seniors also made their last homecoming memorable by painting the windows in the cafeteria. Window designs ranged from Star Wars to soccerballs to slogans such as "GO MOP!" and "Cage the Cubs." The Pioneer football team did just that Friday night by trouncing the Franklin Grizzly Cubs with a score of 47-14. "I'm glad we snagged another victory," said senior Jon Oaks.

The administration dresses up as characters from "The Wizard of Oz" for movie day.

Senior Sheri Grebel paints her senior window in the cafeteria. Ms. Sharon Eickhoff, English, sponsored the new tradition for the second year in a row.
The Pioneers position themselves on the line across from the Franklin Grizzly Cubs. "[We performed] excellently. The game was very important because it is the biggest game of the year. Everybody expects us to win," said junior Zach Scaggs. Scaggs played wide receiver for the varsity team.

MY STORY
Five perspectives on Homecoming

LEVI GOSSER
"The best part of homecoming was making a sack on the quarterback and winning the game as a team. I felt great after winning because we earned it."

SADIE ROZZEL
"I was extremely excited to win. Senior year is better than freshman year, because everybody was able to vote, not just friends and people who knew me."

CAYTLIN MCGANNACK
"The pep rally was most fun, even though people were throwing stuff at us. I had never really watched the games and stood in the fan section but I finally did and it's really, really fun."

MR. ROGER THOMAS
"I've always dressed up for spirit days. I just like to back the school in everything I can. I like to support football and get people to enjoy homecoming since it's such a big event."

KAREN BRYDGES
"I participated because my partner needed someone. I think the pep rally is most fun because there was more going on than regular school. The eating contest was funny."
"I don't think I look like him. People think I look like him because I was missing that tooth."

"Just his teeth [make him look like him] mostly."

"No, I don't think I look like him. People think I look like him because I was missing that tooth."

*celebrity photos courtesy of KRT yearbook*
"Yes, [I look like him] but he has a really big belly and I'm on a diet."

"No, this is the first time I've ever heard of anything like this, but it's a compliment."

Standing out in the crowd
by: Jennifer Hietberg and Jessica McCauley

Celebrities are looked up as being idols, fantasies, and in the most generic tense, role models. MHS not only has a slew of celebrity look-alikes, there are also many small town celebrities created by sports, academics, and great personalities.

Throughout a typical day, celebrity talk was all the buzz, be it about a Hollywood celebrity, a favorite singer or band or even someone walking around the halls of MHS. Celebrity names such as Napoleon Dynamite, Harry Potter, Rod Stewart, and Mr. Incredible were a few among the many being compared to MHS students.

Many students and teachers have diverse views on what genuinely makes a celebrity. No one can truly be the judge of what makes a person special in a sense that morphs them into a celebrity in Hollywood or in our little town of Mooresville, but their little niche impacts the culture of our day. "Something very striking, something very unique make someone look similar to a celebrity, such as Zach's [Wathen] hair. A 'hometown star' is someone who has done something outstanding, either in sports or academics," said Mrs. Sharon Elckhoff, English.

Juniors Jenna Cravens, Heather Wilson and Brandi Prosser dress as the famous faces of the Disney Princesses for Movie Day.

Friend
Clint Brock, senior
"He has the same hair and face. He also acts like him most of the time too."

Dan Adams as Napoleon Dynamite

"I guess [I look like Napoleon] because of my hair, but I got my hair cut now so I don't look like him."

Eric Felder as Harry Potter
"No, I don't think I look like Harry Potter. For some reason people seem to see a resemblance."

Stranger
Thad Miller, junior
"Yeah, he kinda looks like him, because of his glasses and hair."

Famous Faces 9
Abilities beyond compare

By: Jennifer Hietberg

Practice, stress, and relief; three components of Wagon Trails Revue. Thirteen faculty members, 382 students, and 12 volunteers were vital to the creation of the show. The 2004 Wagon Trails Revue was the first musical production of the year and numerous people felt that it was a smash. "Wagon Trails was very exciting this year because I got to participate in many groups and I enjoy performing. There were a lot of awesome acts, and it is a good time for people to showcase their abilities," senior Ryan Queen said.

Band, orchestra, choir, multiple solo acts, and the yearbook staff all were prepared weeks in advance for Wagon Trails Revue. Wagon Trails Revue is a musical performance sponsored by the yearbook staff. All of the money raised by the event went towards the manufacturing of the yearbook. Between acts, yearbook staff members perform commercials to promote yearbook sales. Senior Kelsie Wys, who was involved in both Spotlighters and Madrigals said, "Wagon Trails is loads of fun but yet tons of work, being in two choirs at once is difficult."

Wagon Trails Revue held a sentimental value in the hearts of most of the performers in the show. Seniors and freshmen remembered their first experience in Wagon Trails Revue, and, of course their last. A little reminder was instilled in the back of all the seniors' heads, and it made their performance more personal because of it. "I believe that this year's Wagon Trails was a lot better for me, because I am a senior and it will be the last time I will perform in Wagon Trails," said senior Aaron Flowers.

Senior Matt Smith and junior Rhianda Shanklin dance together with the rest of Spotlighters.

Senior Andrew McKinney conducts the marching band during its Wagon Trails Revue performance.

MY STORY

Five perspectives on Wagon Trails Revue

"I love performing in the show. You feel like you're all alone and you can't see the crowd, but it's a great feeling, almost as good as singing in the shower."

"I thought at first, 'It's three hours long!' But I liked the variety of the show and I loved all the skits. It was fun because I haven't been a part of anything like this, not even in high school."

"Compared to middle school choir productions, I thought it went more smoothly and it was taken a lot more seriously. This year's choir is a lot more enjoyable."

"This was my first year on the Wagon Trails' staff, and I had a great time doing all the skits. I was a little embarrassed being in a dress, but everyone thought it was really funny."

"I did both sound for the show and I also performed in the show. Sound was very stressful, but performing just comes naturally to me because I've been doing it since sixth grade."

Junior Rachel McKinney swings her flag enthusiastically along with the rest of colorguard as they perform with marching band. "It's very hard to put our show onto the stage, but I really enjoy performing in front of my peers," McKinney said.

Seniors Ben Esterline and Miranda Morris pose for a picture on a Pulse Friday. They have been friends since 7th grade.
Friends fill life with fun

by: Jessica McCauley

The popular MTV series Diary opens with the line, “You think you know, but you have no idea. This is the diary of...” Some groups of people at MHS have been friends their whole lives, but do they know each other as well as a couple that has been dating for a year? As well as a pair of siblings?

Freshmen Chelsea Wenz and Katelyn Richmond have been friends since kindergarten. “[I know her] pretty well. We’re swell friends,” said Wenz. Seniors James Hannah and Caitlin McBride have been a couple since August of 2003. “[She knows me] better than my friends,” said Hannah. “[I’m closer to my] girlfriend, because we spend more time together, and I am more comfortable talking to her.”

“I’m closer to my family, I guess but she’s part of my family, so it’s all the same,” said senior Tyler Moffat of girlfriend Bridget Taylor.

Relationships between people are important, especially since everyday students are constantly surrounded by their peers. “[Having my brother here] is ok, he’s really protective,” said freshman Ashley Mayes of brother Chad Mayes, junior.

Whether it be a friend, boyfriend, girlfriend or a brother or sister, having loved ones around makes life more fun and interesting.

“We were jumping on a trampoline and my pants ripped out in the back and I had to go to Plainfield like that and Christi had to go with me. Her pants ripped that day too.”

“We went shopping with holes in our pants. We got plenty of funny looks but we didn’t care. Our pants were a little tight, what can we say?”

Snowcoming Dazzles MHS

by: Jennifer Hietberg

It only seems suitable that when the chilly weather comes, the athletes pack up and move indoors. Winter Homecoming, now known as “Snowcoming,” is one of the biggest events that occurs in the MHS gym. The students were pumped by the fact that the Fox 59 newsteam was coming to film the pep rally for Winter Homecoming the morning of the big night.

Throughout the week the faculty and students prepared their enthusiasm by celebrating a unique spirit day each day. These days included Oops, I forgot it was spirit day, Twinkie day, and favorite band t-shirt day. “The best thing about spirit week was when Fox 59 came and filmed our pep rally. I was so pleased and excited that so many students came to support our teams and they all showed up before 6:30 a.m.,” said Mrs. Kathy Bothwell, math.

Royalty graced the crowd with its presence as the homecoming court entered the gym at halftime. Seniors Nick Oschman and Megan Shimonek were crowned Winter Homecoming queen and king. “It was exciting to be crowned king because I was a senior and it was senior night at the game, and that made it much more special to me,” said senior Nick Oschman.

Dominating all the competition, the boys and girls varsity basketball teams defeated both Avon teams. The girls started out the night with a slamming score of 49-47. “The game was awesome, because it was loud and all of us fans got into it. It’s always a good time at the girls basketball games,” said senior Dan Jones. The boys brought us home with an excellent victory with a score of 42-40.

Mr. Matt Swain, guidance, struggles to keep the ball as seniors Jared Hilligoss and Jared Johnson fight him for it.

Ms. Sharon Eickhoff, English, shows her enthusiasm and support for the winter athletes throughout the pep rally.

Photo by April Kelly

The student team, full of all seniors, poses after its student/faculty game in the pep rally.

Photo by Cory Tanner

Pepping up the crowd for every home game, the pep rally is no exception for the pep band.

Photo by April Kelly
The Fox 59 news team bombarded MHS for the winter homecoming pep rally. Junior Lauren Woods, senior Alison Quinn, and freshman Cheyenne Bennet scream into the camera to portray their school spirit.

**MY STORY**

Five perspectives on Homecoming

**MEGAN SHIMONEK**

"I was really shocked when I won, I honestly didn’t think I would win. Then when they said my name it was like being hit all of a sudden with all this happiness at once."

**MR. T.J. VAN**

"I liked the fact that we had the faculty game during the school day so the students could get involved. I also appreciated the competitiveness in the game."

**JOHN FIELDS**

"The pep rally was really cool, and I think it enabled us to play very well. The team played together great that night and we received a huge victory."

**GENNIE BRAUN**

"I’ve been attending winter homecoming since seventh grade and four years later I’m cheering at it on the varsity squad, and I was on the homecoming court."

**HEATHER GRAVES**

"I had the most fun during the student versus faculty game. During the breaks they would play music and we danced and everyone was looking at us weird."

Winter Homecoming 15
Although very relaxing, a trip to the spa can be quite expensive. There are several recipes for relaxation that can be performed at home at anytime.

Happiness, joy, and peace all can be enhanced by the following recipe for ultra-relaxing bath soak. Citrus oils are an inexpensive way to achieve therapy in your own home.

**DIY...do it yourself Just take...**

- 1 medium size orange
- Nonstick cooking spray
- 2 cups sea salt
- 1 cup dried chamomile
- 1 Large bowl, large baking sheet
- 1 jar that looks cool to you
- Color of a cool print
- 9" leather cord or ribbon

**then...**

1. Slice the orange (keep the peel on) into about six 1/4"-thick round slices.
2. Grease baking sheet with nonstick spray, then lay slices next to each other. Bake them for 2 1/2 hours at 250 degrees or until they are dried and slightly browned on the top.
3. Once the orange slices are cool to the touch (about half an hour), dice half of them. Put the other slices aside.
4. In a big bowl, gently mix together the sea salt, chamomile, and diced orange pieces.
5. Pour the mixture into the jar and place the remaining orange slices on top before closing lid.
6. Make a homemade label with colored paper or a brown paper bag. Include the ingredients and directions: “Pour 1/2 cup of Ultra-Relaxing Bath Soak into a tub of warm water, slip into your birthday suite, and let your stress melt away!”
by: Jennifer Hietberg & Jessica McCauley

Do you ever have “one of those days?” You know, seven hours at school, two hours of practice, four agonizing hours at work, then you get to return home, just to start on your two hours-worth of homework? Well, believe it or not, you’re not the only one. Throughout their daily lives, high school students accumulate an overwhelming amount of stress.

“The fact that I’m involved in so many things stresses me out,” said sophomore Sam Godsey. Godsey is involved in Madrigals, Pulse, SADD, Student Council, Stage Crew, French Club, Insomniac, PUSH and the Fine Arts Academic Team.

Even with the odds against them, MHS students had created their own unique ways to relieve stress. “Homework and the responsibilities of it stress me out, but I ride my dirt bike to relieve all of it,” said freshman Matthew Martin. Others, like senior Allison Brown choose for a more hands-on approach. “I knit, I draw or do something else that I really enjoy because it keeps me from wanting to cry,” said Brown.

There are several other methods of relaxation. Some found shopping therapeutic. Others enjoyed a trip to the spa, eating, sleeping, spending time with family or simply being alone.

70% Sleep
11% Eat
15% Listen to music
4% Knit/crochet

“...Running with my dog, work out, and be outdoors.”
“...I usually just chill out on my couch and watch Andy Griffith reruns with my friends.”
“...When I relax I play my guitar. I play in my room or with my friends. I’m also in a band.”
“...I make my boyfriend watch Disney movies with me. It’s nice to just stop all the school stuff and everything else and take a load off! I play old school Nintendo with him too.”
“...I just hang out with my friends after school. It’s fun to be with them and not have the pressures of school and homework.”
Much anticipation and planning went towards student’s spring breaks at MHS. Spring break was commonly believed to consist of partying, sun bathing, and meeting new people. This year many students found it to be relaxing, too short, and full of people they already knew.

“I went to Panama City, Florida with my friend Randy Reynolds and we just hung out the whole time,” said freshman Brian Jones.

Many students enjoyed being around their fellow peers and hanging out with them out of school. For example, some traveled out of state with friends.

“I followed the Hilligoss’s down to Englewood, Florida. I had a lot of fun with my friends. We went deep sea fishing, parasailing, and rented jet skis,” said junior Lauren Kenney.

In contrast to those social butterflies, some students opted to stay home and work, or catch up on some much needed rest and relaxation.

“Over spring break I stayed home and I slept a lot and I ate, and I slept some more. I also listened to some music and went over to the Rittenhouse’s house. I may be loud and outgoing, but I don’t like being around people all the time,” said junior Manda Koerner.

“I worked with my grandpa over spring break. I had more fun at home than I would have had if I went somewhere else,” said freshman Cameron Harding.

The stereotypical high school spring break wasn’t at all what most MHS students experienced. In point, more students stayed home rather than travel somewhere. The fact of the matter is, students had fun, whether it be in Florida, with their friends or even without friends.
Sophomores Kevin Oschman and Sean Walton dug themselves a hole on Fort Myers Beach, Florida.

Spring BREAK '05

Soaking up the California sun, seniors Shawn Keown, Steven Smith, Dan Jones, Anna Payne, Nicole Fenn, and Kristina Armitage traveled all the way to San Diego.

In Clearwater, Florida junior Whitney Wright and freshmen Katie Jennings and Kristi Hampton pose on the beach.

Students enjoy their spring break together down in Fort Myers Beach, Florida.

Juniors Amber O'Dell, Ashley Neutzman, and Tonisha Pope hang out in the water in Gulf Shores, Alabama.

For the first time in school history, students performed the musical in the fall. "Little Shop of Horrors" was about a plant shop that was going out of business until one of the employees, Seymour Kelborn, played by senior Chris Eiteljorge, created the Audrey II, which brings the store astonishing fame and business. Roughly 65 people were involved in the production and they practiced around 80 hours to make the show a hit.

The 38 cast and crew members of the Spring Play, "Pygmalion" took on a similar workload. Eiteljorge was a part of both productions. "Each in its own [was stressful] the closer it got to showtime," said Eiteljorge. In eight weeks they accomplished around 100 hours of practice. "Pygmalion" is also commonly known as the musical, "My Fair Lady." Eliza Doolittle, played by senior Jacqui Blessing is transformed from an unclean, uneducated slob into a lady fit for royalty by Mr. Henry Higgins, played by Eiteljorge.

Since the SADD Talent Show was not an event last year, this year, it was a priority for SADD members. "Since we weren't able to do it last year, we wanted to make sure it happened this year," said sophomore Sam Godsey, president of SADD went on to say, "We had a lot of hardcore competition and the show was a success." Sophomores Corey Ramsey and Chris Woods won first place, Senior Michele Sepulveda placed second and sophomore Ricky White and junior Scott Evans placed third.

"Feed me" was the main line from the Audrey II. Juniors Zac Overton and Jon Eickman brought the plant to life with Overton as the voice and Eickman as the puppeteer.

Seniors Heather Bartram and Jacqui Blessing perform in the Spring Play, "Pygmalion." Mrs. Pearce, Bartram, teaches Eliza, Blessing, the importance of cleanliness.

Seniors Chris Eiteljorge and Jacqui Blessing perform a scene from the fall's production of "Little Shop of Horrors."

Putting a New Spin on Old Tunes

By: Jennifer Hietberg and Jessica McCauley

The month of May is notorious for being one of the busiest months of the year. Prom, Graduation, the Indy 500, Memorial Day, and Mother’s Day are all crammed into May. As if that weren’t enough, Spring Spectacular also takes place every May at MHS.

On May 12 and 14, choreography was danced, memorized notes were sung, instruments were played and tears were shed in the William R. Curry Performing Arts Center. All of the groups had been working for weeks for that moment. The moment when the curtain opened on their group, and they smiled and put all of their efforts into their performance.

Finesse and Spotlighters performed their competition shows as usual, but a lot of variety was put into the entire show this year. Spotlighters danced to Ciara’s “1,2 Step.” Bringing back 80’s rock, Finesse and Genesis both sang Bon Jovi songs and Madrigals sang a Styx medley.

“It was really fun getting to perform a lot of the songs my parents used to listen to. It was also really sad knowing its the last time I’ll ever get to perform,” said senior Sam Phelps. Phelps was a member of Finesse and Madrigals. Junior Derek Wilson also felt the finality of it, saying, “Performing was my favorite part because I got to perform with all of the seniors for the last time and it was my last chance to perform.”
by: Jessica McCauley
Prom is an event that takes place in almost every high school across the nation. MHS is no different; however, Prom underwent some changes from years past.
Since 1973, Prom had been held on and off at the 500 Ballroom at the Indianapolis Convention Center. Consistently since 2000, the event had been held there. The Egyptian Room at the Murat Center was home to the 2005 Prom.
"It was more elaborate than in years past with the fountain, decorations, and prom favor table," said senior Ben Esterline. The location change brought out a new change to the tradition, seniors had to pay full price for tickets.
Though prices rose, students were pleased by the theme that suited the Egyptian Room so well, Sunset Over the Nile. Temperatures increased as the music blared throughout the night, but the Promgoers received a much needed rest for the crowning of the King and Queen. Seniors John Fields and Jacqueline Blessing were named King and Queen, and juniors Ryan Lybarger and Ashley Butler were named Prince and Princess.
Senior Aaron Flowers and junior Ashlee Aspin peruse the hors d'oeuvres.

My Story

What was the best part of Prom?

Cortnie Bowers
"Prom was really awesome, and it was definitely a night that I will always remember."

Leland Kinnett
"Being with my friends because it was all of our first prom together, since none of us went last year. It was our senior prom and we made it the best."

Wyatt Allegree
"Spending Prom with the two coolest girls, Jennifer Hietberg and Danielle McCorkle. We all three danced the last dance together."

Allison Quinn
"Our limo driver hit a pole. We went in the building and acted like we didn't know her. Spending the whole weekend with my boyfriend and friends too."

Sam Gun
"Prom was fun and I liked it a lot. I really enjoyed it because I got to hang out with all my friends and we got to eat. Everyone enjoyed the food but not the screaming kids."
The yearbook staff captured the moments of adventure that occurred before prom and after prom. The car show, once again, was a smash amongst the students, and post prom kept the students up until the wee hours of the morning playing games in order to win prizes.
Graduation
by: Jennifer Hietberg

One anticipated question every senior asked when they were under stress this year was, "will this year ever come to an end?"

Well, Class of 2005, yes it has. In fact, it came and went so quickly, graduates barely comprehended what had happened before they took that first step on stage to grab their diploma.

"When I wasn’t paying attention, the year seemed to fly by. I had an awesome time spending the end with all of my friends that I’ve had since elementary," said senior Nicole Fenn.

Graduation was full of heartfelt speeches and a slideshow to recapture the memories the senior class had shared together throughout their years in school together.

"The slideshow was like a mini soap opera, but it could have been an epic novel if I would have been in it, but I wasn’t," said senior Andy Ashton.

The valedictorians, Derek Bailer and Nicole Riley, and the Salutatorian, Kristina Armitage, each delivered speeches of encouragement and gratitude.

Senior Class President, Jacob Mills, capped off the ceremony with the turning of the tassels.

Rows of seniors wait patiently in their blue caps and gowns to complete their graduation.

Many of the seniors remained outside until the commencement began because of technical difficulties.

Superintendent Curt Freeman congratulates foreign exchange student Yumi Takahashi.

Eric Qui and Brittany Bailey stand in line to walk down the aisle to their seats.

The graduating class awaits the speeches from the valedictorians and salutatorian, while reading over the programs.
Five perspectives on Graduation

**Jared Hilligoss**

"I was sitting in the front row, and I looked in the aisle and my friends were walking down and I got a little choked up. That’s when I realized we were graduating."

**Miranda Morris**

"It’s sad to leave, but I know better things and opportunities await."

**Derek Bailey**

"As I gave my [Valedictorian] speech I realized it was finally over. I loved my time here, but I’m ready to move on."

**Morgan Breedlove**

"Unfortunately I had a kidney infection, but all in all the experience was totally worthwhile. I felt accomplishment with the hard work I had put forth in my high school career."

**Russell Wright**

"I had so much stress built up from the entire year, and sitting through graduation was just one huge relief for me."

The MHS Class of 2005 sat for two hours in order to say they were finally done. They had 286 students graduate from their class.
Collage of Memories
by: Jennifer Hietberg & Jessica McCauley

The yearbook editors handpicked photos from throughout the year that they thought represented the life of a student. They combined the pictures to create a collage of memories to sum up the year in student life.
Different students. Different lives. Different perspectives on their high school lives. Drama may summarize their relationship with their peers and comedy may portray their aspect on life. Whichever it is, dramedy is the happy medium between the two extremes. Without dramedy, the movie of students time at MHS would just not be complete. Compared to the Sunday night feature presentation of "Desperate Housewives," MHS was on the verge of becoming the next big thing.

M E D Y
Rebekka Altmeyer
In three words I can
sum up everything I've
ever learned about
life: It goes on.

Kristina Armitage
Fear not for the future,
weep not for the past.

Michael Ashburn
Gangsters don't dance
they boogie.

Andy Ashton
GAME OVER

Brittany Balay
I'm sad to leave my
friends and teachers.
It's hard to say
good-bye.

Angela Bange
If you love something set
it free, if it comes back
it's meant to be.

Ashley Barnes
Try to erase this!

Jackie Barnett
Your touch is like the
summer breeze that never
lets go of me. Your kiss
is like the first kiss I
never received.

Heather Bartram
In the game of life, may
you always roll a '20.

Jesus stretched forth his
arms on the cross and
said, 'I love you this
much.'

Karrie Addie
You rose from the
ashes like a phoenix
with a heartache. Now
you're taking me away
with you tonight.
K.I.T.W.

Amber Aldridge
And you're done.

Grace Albright
I had a wonderful time
at Mooresville, and I
will miss everyone.

Jesses Austin
Ha Ha... Just Kidding.

Derek Bailier
Live life to the fullest
everyday and have no
regrets.

James Bailey
If your enemy makes a
mistake don't correct
them.

Joseph Bailey
I am the voice of one
crying in the wilderness:
Make straight the way of
the Lord.
John 1:23.

Justin Bain
"Pull over"...no it's a
cardigan but thanks for
noticing.

Mathew Bain
I'm a distance runner,
my favorite color is
clear, and my hobbies
are running into parked
cars.

Jayme Beard
The best thing I ever did
was nothing.

Christopher Beasley
Don't judge me until you
know me...

Sarah Beck
Start every day off with
a smile and get it over
with. W.C. Fields.

Jessica Beeler
I was here even though
no one knew me!

Johnathan Birchler
Don't stress over getting
a B; it's not the end of
your life.

Brent Bishop
Don't you owe me five
cucks.

Thomas Bothwell
If it ain't rock n' roll, it
ain't music!

Jacob Bowman
I can't have that I'm
cutting weight!

Morgan Breedlove
When you are looking for
faults use a mirror not a
telescope.

Dustin Brinkerhoff
UHRR...WHAT?

Clint Brock
If you are not living life
on the edge you are
taking up to much space.

Heather Brock
True love is like ghosts,
which everyone talks
about but few have seen.
Allison Brown
Babydoll, life's too short to drink from the Holy Grail of Hatred. Sadly, some do anyway.

Cory Bryant
Deal with it!

Maggie Bryant
Everything happens for a reason and that reason will be seen in time.

Jeremy Buchanan
I can resist everything except temptation.

Julie Bullard
Sometimes I wish I were a little kid again, skinned knees are easier to fix than broken hearts.

Brooke Burns
As high as you reach can you grow, as far as you seek can you go, only as deep as you look can you see, only as much as you dream can you be.

Jared Gaprodt
I can't believe I ate the whole thing!

Ashley Clark
Crab diet!!!!! Uhhhh...Carb.

Missie Clements
When one door closes, another opens, but often we look so long at the closed door that we do not see the one which has been opened for us.

Missie Clements
When one door closes, another opens, but often we look so long at the closed door that we do not see the one which has been opened for us.

Jared Gaprodt
I can't believe I ate the whole thing!

Brad Coffman
Every experience in life is an opportunity for growth.

Sarah Coley
Every experience in life is an opportunity for growth.

Missie Clements
When one door closes, another opens, but often we look so long at the closed door that we do not see the one which has been opened for us.

Jared Gaprodt
I can't believe I ate the whole thing!

Missie Clements
When one door closes, another opens, but often we look so long at the closed door that we do not see the one which has been opened for us.

Brytney Crane
The only courage that matters is the kind that gets you from one moment to the next.

Jessica Daffron
The best and most beautiful things in the world cannot be seen, nor touched, but are felt in the heart.

Evan Dale
Four one eight zero seven three nine.

Sheena Daugherty
Every story may have an ending but every ending starts a new beginning.

Matt Dempsey

Scott Dewey
Never argue with an idiot...They will only bring you down to their level and beat you with experience.

INTERMISSION!

Photo by Keleigh Adcock

The Senior girls' powderpuff team pose with smiling faces, even though they had a dramatic loss to the junior team.

Seniors Jamie Beard and Kelsey Stewart dress in their senior jeans to show their support for their school on one of the spirit days.

Senior Andrea True sings her heart out on her solo during the final song of Finesses' performance.
Derek Burton
95% of these quotes were probably taken from a quote website. The other 5% were from procrastinators like me who didn't care.

Charity Cartwright
Of all the phrases of the tongue or pen, the saddest of those is, 'It might have been.'

Darrin Carver
I have no quote.

Brad Cassidy
Procrastination equals bad quotes.

Jennifer Chilote
The greatest achievements were at first and for sometime dreams.

Danny Chrenko
There are millions of people starving in the world today. But I'm not.

James Cooley
With great comes great opportunity.

Ashley Coombs
Reach for the stars and never give up.

Garrett Cooney
It's not the size of the dog in the fight, it's the size of the fight in the dog.

Whitney Cooper
Imitation is suicide.

Brittany Crafton
Strive for your best in all you do stand tall and hold your morals true reach for your dreams, never give in have faith and you will always win.

Stephanie Dildine
Life is like candy, hard but sweet and you should try to taste it all.

Brandon Doulaki
The only easy day was yesterday.

Jonathan Dowden
I had a wonderful time, but this wasn't it.

Devin Dozier
If you're not willing to risk it all then you don't want it bad enough.

Mathew Drury
There is nothing more rewarding in life than reaching a goal you set for yourself.

Justin Duke
Don't hate the Kentuckian.

Eric Edwards
Don't let the smallest thing in life slow you down.

Shannon Edwards
Those who can be trusted, can change their minds.

Christopher Eiteljorge
Over the past four years my opinions have changed, but not the fact that I am right.

Elizabeth Elliott
When the power of love conquers the love of power then the world will have peace.

Jeremy Ellyson
Lethargic.
Lamber Enochs
Listen to your heart and go with the feeling that you believe what you know is right.

Ben Esterline
Keep your head held high, because you don’t know what you’ll run into looking down.

Matthew Evans
It’s been real...it’s been fun...but it hasn’t been real fun.

Kevin Farmer
Off the woodwork, No Goal! Ha Ha, and remember you can become what you want to be.

Austin Faull
It’s all fun and games ’til someone loses an eye; then it’s just fun you can’t see.

Melissa Fears
Sometimes even the wrong words seem too right.

Lauren Gershanoff
When we understand that we have a short time on Earth will we begin to live each day to the fullest, as if we only had one day.

Stephanie Gilliam
The future doesn’t exist. All you have is what you’ve already lost.

Jeffrey Gilmer
I don’t know what to say.

Sarah Glover
One love, one heart, let’s get together and feel alright.

Edward Goebel
Just because I rock doesn’t mean I’m made of stone.

Kayla Golden
Forgive your enemies, but never forget their names.

Emily Gunckel
Work hard and make money.

Charles Hagee
Focus on your goals. Just don’t get caught focusing too much on the same ones.

Rachel Halcocmb
Walk in his ways...so that you may prosper in all you do. (1 Kings 2:3)

Tiffany Hamilton
Life is what you make it, so why not make it peaceful?

Craig Hampton
Trust No One.

Joshua Haney
Is that Santa Clause?

Intermission!

Pep Rally’s and Spirit Days

Even a pebble can start an avalanche.

Joshua Hribernik
Look at where you're going not where you have been.

Amanda Hudgins
Many are the plans in a man's heart, but it is the Lord's purpose that prevails. (Prov. 19:21)

Bailey Hult
It is good to have an end to a journey, but it is the journey that matters, in the end.

Courtney Humes
Love conquers all.

Thad Hundermark
Now it's time to play cards nonstop.

Lindsey Jones
Procrastination is the art of keeping up with yesterday.

Cassie Juray
Please don't say I love you, those words touch me much too deeply.

Christopher Kaufman
That what you fear the most can meet you halfway.

Stephen Kays
No journey is too great when you find what you seek.

April Kelly
We will never know what we are capable of until we live outside our comfort zone.

Kerien Kenworthy
The best time to keep your mouth shut is when you are under water.

Shawn Keown
I'm out like a fat kid playing dodgeball.

Leland Kinnett
Don't tell me how rocky the sea is, just bring me the ship.

Scott Klinger
Donde esta la biblioteca?

Brandi Kovacs
What we do today effects eternity.

Allyson Ladd
True love waits.

Ashlie Lair
Live each day like there's no tomorrow, because you never know when tomorrow won't come.

D.J. Lane
My mind is a raging torrent, flooded with rivulets of thought, cascading into a waterfall of creative alternatives.

Justin Law
You miss 100% of the shots you don't take.

Megan Leblanc
Say what you have to say, not what you ought. And truth is better than make-believe.

Michelle Lehr
Time will tell if it was time well spent.

Rachel Linthicum
I live for the nights I'll never remember, with the friends I'll never forget.

Aaron Loomis
If you ain't cheatin', you ain't tryin'.
Alyssa Mann  
Carpe diem—Seize the day; Carp in denim—There's a fish in my pants.

Jeffrey Martin  
Well, my friends, it's been swell but the swelling's gone down.

Todd May  
Love is not who you can see yourself with but it is the person you can't see yourself without.

Caitlin McBrice  
Don't waste time stressing over the things you cannot change.

Jessica McCauley  
Common sense isn't so common.

James Miller  
A man can never stand as tall as when he gets down on his knees and prays.

Jacob Mills  
Use no way as a way and no limitation as a limitation.

James Minardo  
Keep your friends close. Enemies closer.

Brandon Mitchell  
Our greatest glory is not in never falling, but in every time we fall.

Tyler Moffat  
Indeed, I can avoid being seen if I wish, but to disappear entirely, that is a rare gift.

Jaxon Munn  
Huh?

Mary Myers  
You have to love to be loved.

Lance Newton  
Love is like getting your tongue pierced. It burns a little bit and you have to buy jewelry.

Mathew O'Neil  
If nothing last forever...then will you be my nothing.

Jon Oaks  
They make more Red Bull.

Nick Oschman  
One day in a perfect world, we will all be noble gas.

Jaxon Munn  
I would rather be hated for who I am than loved for who I am not.

Sara Poteet  
Don't be afraid to be yourself people might like you more than they already do.

Greg Preston  
Knowledge pursues me, but I am faster.

Ryan Queen  
The road to success is always under construction.

Alison Quinn  
Even the smallest person can change the course of the future.

Reanna Redmond  
If you don't get caught, did you really do it?
Josh McDonald
Be positive today to set the pace for tomorrow.

Carl McDonald
There is no cosmetic for beauty like happiness.

Andrew McKinney
Holy, Holy, Holy is the Lord God almighty, who was, and is, and is to come!

Deric Miller
Go with it!

Real men drive camaros, but boys who want to be men wreck them.

Kerry Moors
It's not about the journey it's about the destination.

Senior Kassidy Turner watches the pep rally form an unusual seat on senior Ryan Hickey's shoulders.

Senior
Withdrawal
Stepping up to changes

by: Cory Tanner and Megan Shimonek

Since the seniors at Mooresville High School were freshman, many changes occurred. However, each time a tradition was changed, seniors stepped up to create what could become future traditions and a legacy left by their class.

For example, the class of '05 found itself without the chance to use senior paddles, due to a regulation handed down in the '03-'04 school year. That did not hold the seniors back -- they quickly retaliated with the senior plungers. It was a weird tradition to start, but it is hopefully a new tradition that will be carried out with for many years.

Another one of the big changes for the class of '05 was getting a new vice principle for their final year at MHS in, Mr. Tim VanWanzeele.

"Mr. Bruce Peters was a fun guy, but Mr. VanWanzeele is making the school a better place by enforcing the rules that were never enforced very much before," senior Alison Quinn said.

Seniors also dealt with a new lunch situation in their high school years in that they shared cafeteria space with middle school students. It seemed at first like an odd change, but it did not take students long to get used to it. However, some seniors objected to the situation.

"Nothing is stopping the middle school kids from skipping class and coming into the high school. They are loud and immature and that interrupts with us trying to eat and have some time away from class," senior Caitlin McBride said.

Another rule enforced more strictly in '04 - '05 was the flip-flop issue. Because of potential safety concerns, seniors were not allowed to wear flip-flops to school in their final year of high school.

"The flip-flop issue is ridiculous. A person fell and sued the school and they don't even go here anymore. It just goes to show that some people will do anything to get the school in trouble," said senior Heather Graves.

The final legacy left by the class of 2005 was the creation of a new club - Project Ignition. Mooresville Project Ignition, a group of voluntary seniors who decided to campaign for teenagers or adults to not drive while drunk, impaired, or on a cell phones soon took action in the school and community.

This group of around 40 seniors worked as hard as they could to fight against this by making movies, key chains, and many other activities to get people involved. Project Ignition did such an amazing job that students took a trip to California and won first place for their outstanding achievement.

The class of 2005 made a difference during the time period they were in high school and through the years will be remembered as the class that did not give up.
Junior Steven Tutterrow gives a presentation over Huck Finn in Mrs. Elizabeth Yoke's Honors English class.

Junior Kari O'Riley browses the internet during study hall.

Junior Phillip Schroeder presents an English project for Mrs. Elizabeth Yoke.

Junior Megan Manion participates in a mock trial for Mrs. Candice Due's Journalism 1 class.

Junior Jon Eickman reads from the script for the spring play.
Keeping up with schoolwork and working late hours became a difficult task for juniors this year. Several juniors held jobs throughout the school year and tried to manage staying on task and keeping their grades up.

Late hours often associated with having a job played an important role in students' studies.

"Working late affects how I focus at school because I don't get enough sleep," junior Brittany Wells said.

Having to work weekdays ended up being quite a hassle for most. "After working late it makes it hard to get up and function the next day at school," junior Katy Harris said. So why get a job if it only makes things a lot more stressful?

"I wanted a job, because I wanted to be independent and have my own money," Harris said.

That was a response often heard by many of the students. The juniors wanted independence from their parents and jobs would be the next step in that process.

They had begun getting their Driver's Licenses and having separate lives from their parents. Now, all they needed was their own spending money.

"I feel independent because I can buy whatever I want," junior Nicole Shiele said.

So all in all, the juniors found out that having to work late hours and on weekends really was worth the money and independence gained in the end of it all.

Jammin’ Juniors
Juniors with unusual hobbies

Junior Zach Carney has been racing cars for the last ten years. He races dirt late models in races across the country.

“I do it, because I enjoy the speed and the thrill.”

Carney would someday like to turn it into a career. Nascar has already been looking at him as a possible driver. He has won several championships and lives on the road during most summers. Carney is the youngest driver in dirt late model races.

Junior Shannon Polley has been riding horses for seven years and barrel racing for two. Barrel racing is when the rider and horse must run around three barrels in a shape of a triangle with the barrels in a cloverleaf pattern.

“I started riding one summer because I was bored, and planned on quitting when school started again.”

Polley began racing when she moved to Indiana because her friends were doing it. She hopes to join the PRCA (Professional Rodeo Cowboy Association) and continue racing in rodeos all around the country in the future.
The Burning Question
Do you feel more independent when you have a job?

"I'm more independent, because I appreciate things when I buy stuff myself."

"I pay for my car and my insurance and my mom doesn't have to worry about me having money. I feel like a responsible person."

"I feel more independent, because I'm not lazy and my parents won't shelter me my whole life, so I'll be better off in the end."

"I'm more independent, because I have money to spice up my life."

"For some reason I need money, even when I have a job."

Junior Keghan Hopwood poses with a motorcycle for Tech Club in downtown Mooresville.

Junior cheerleaders Kelsey Box, Brittany Goodman, and Amanda Jones wait to cheer at a pep rally.

Junior Brett Roberts works on putting on the brakes in his Area 31 class at Ben Davis.

Junior Ashley Viles works on a computer in the library.
Sophomores Derek Gould and Adam Quinn give a presentation during English class.

Sophomore Kaitlin Stogsdill works on an assignment during Mr. Wes Neese's English class.

Sophomore Hannah Ferrand gives blood during the Student Council blood drive.

Sophomore Tauri Rittenhouse works on a project during Earth and Space science class.

Sophomore Katie Kirkendall participates in hat day during fall homecoming.
For many high school sophomores getting to high school meant gaining more freedom and independence. A few of the perks of high school were getting to drive, having a later curfew, getting a bigger allowance, getting a cell phone, and being allowed to carry backpacks to class.

The majority of sophomores had around a 9 p.m. curfew on school nights. Sophomore Jessica Dewey thought that curfews were a good idea because, "they make sure that people are home safe and not causing trouble."

In junior high school, carrying classroom materials was a hassle because students were not able to take their backpacks with them to class. However, in high school the load was lightened because at MHS students were allowed to take backpacks to class. "Carrying a backpack with you really makes it a lot easier to take all the things you need with you, it's so much more convenient," sophomore Erica Skirvin said.

All these new freedoms seemed really nice, but there was a catch - having new freedom also meant having new responsibilities such as picking up younger siblings or other relatives from school.

"Sometimes I have to pick my cousin up from school," sophomore Katie Esterline said. So there it is, new freedom equaled new responsibilities for many sophomores.

Sophomore Blake Hult has been riding BMX since he was twelve years old. "I got my first bike, a Dyno coupe, when I was 12."

"I ride BMX, I do tricks, I meet people, I stay in shape and most of all I have fun." Blake has won two trophies for riding and has traveled to skateparks all over the country.

"I want a job that has to do with it [BMX] but I doubt I will become a pro." Blake said that if he doesn't go pro, he will start his own bike company.

Sophomore Paige Oswalt has been doing gymnastics ever since she was two years old and she has been competing on a team since she was six.

Paige competed with a private club in Greenwood, IN, Wright's American Gymnastics. When Paige was in level 9 gymnastics she competed in regionals and got a score of 9.45 out of 10. She qualified third for the national competition in Boston, Massachusetts, she won eighth in the nation.

"My lifelong goal has always been to go to North Carolina or Georgia College for a gymnastics scholarship."
The Burning Question
Do you feel that your parents treat you differently now than they treated you when you were in junior high school?

Amber Smith

"Yeah, my mom lets me stay out longer and lets me do more stuff with my friends."

Derek Gould

"Yes, I seem to have grown more mature, so they treat me with more respect."

Whitney Bess

"Yes, they tell me to become more responsible and they are forcing me to get a job."

Ryan Alstott

"No, because I'm still able to do everything I used to be able to."

Heather Rains

"No, because they still treat me like a kid."

Freshman reciever Corbin Murphy waits for the snap.

Freshman Tabytha Waterman shows her school spirit during homecoming as she talks to freshman Rachell Pryor.
Freshmen experience homecoming

by: April Kelly

For many freshmen, both fall and winter homecomings were highlights of their first year of high school. From the pep rallies, to the spirit days, to the games themselves, homecoming was an exhilarating experience. Homecoming is a time when past, present, and future students of MHS come together to cheer on their teams to victory. Out of all the festivities to participate in during homecoming, many freshmen thought the games were the best part.

"Fall homecoming was my favorite because I like football. Half time was cool because one of my friends is in color guard and I like the flags being thrown," said freshman Joy Grimes.

While many freshmen have been coming to homecoming games for years, this was their first chance to fully experience the entirety of an MHS Homecoming as a full-fledged high school student.

According to freshmen polled, 33 percent voted the pep rallies to be their favorite part.

"The pep rallies were my favorite part because we got to get out of class," said freshman Shauna Young.

While that was a main reason for students to enjoy the pep rallies, they also became aware of the purpose of them.

"They get us [the student body] ready for the games," said Young.

What's your favorite part of homecoming?

Clayton Smith
"Going to read books to the DPS students, because they were funny and learned not to bully people."

Kalee Forrester
"I really enjoyed all of the leadership or student government field trips."

Brittany Strohmeyer
"I enjoyed reading to the students at the DPS school. It was a lot of fun for me and I think the kids enjoyed it, too."

Ashley Mayes
"I enjoyed being able to go to the DPS school to read to with the students. We got to hang out and talk with them for awhile, also."
Fantastic Freshmen

Many students associate the name Mossbrucker with senior Kyle, but there is another one MHS should be on the look out for. Trent.

Trent has played basketball since kindergarten and football since second grade. Although he has more experience playing basketball he thinks football will be his better sport.

Kyle is in the Top 20 of his graduating class and star quarterback of the football team. Trent was asked if he thought he could surpass Kyle in either athletics or academics.

"Athletics yes, academics I don't think I will even come close." Trent replied.

Freshman Kenzie Klinger has been in choir for the last five years and was one of four freshmen to be in Finesse for the first time in school history.

"At first I was a little hesitant to the idea of being one of the only freshmen, but as the year went on it just became so fun and I met a lot of new friends and it was all around a great year!" said Klinger.

Klinger thinks that freshmen should be chosen by the directors to be in the advanced show choirs as long as they are talented. She suggested that only a few be chosen.
The Burning Question
Which Homecoming did you like the most?

Ashley True

"Winter homecoming was my favorite, because I was able to play my flute since I am in pep band."

Selinna Vangundy

"Fall homecoming was my favorite, because we could more involved."

Tyler McCauley

"Fall homecoming, because we won the float building competition and the seniors didn't."

Courtney Thurman

"Fall homecoming, because it was more exciting because of the floats were, and there was more fan support."

Stacie Van Dyke

"Winter homecoming, because I was able to cheer, since I was a Varsity Boys Basketball cheerleader and only a Freshmen Football cheerleader."

Athletic coordinator Mike Mossbrucker and Asst. Principal Kellie Jacobs participate in tug of war during the fall pep rally.

Serving His Country and Students

Mr. Andy Miller, an Algebra I and geometry teacher, left early in the school year to fulfill his duties in the U.S. Army. He joined the army in 1999, because he has always respected what they have done and he wanted to be patriotic.

“I want to go for experience but I don’t want to go for such a long time,” Miller said. Miller, a First Lieutenant, is in charge of a platoon and his job involves providing security for other convoys.

“I’m sad that he is leaving because he was a fun, really good teacher,” said junior Whitney Wright.

“Good luck and say a prayer for me,” Miller said.

To contact Miller e-mail him at andrew.miller@us.army.mil
by: Julie Bullard

The Mooresville High School faculty changed fairly dramatically with new teachers coming in to take the place of the many that have retired or changed schools.

Mrs. Elizabeth Breiding, the new French teacher, said that she enjoyed this school year.

"My year here at Mooresville has been fun and I really enjoy the school spirit," said Breiding.

Mr. Bob Grosskreutz retired at the end of the first semester and left his classes to Mrs. Kelly Crawford.

"I couldn't stand to leave my calculus students mid-year so I still come in several days a week for help," said Grosskreutz.

Other new teachers included Mrs. Nicki Manion, Miss Kendra Wessel and Amanda Warner, math; Mr. Jason Roth, technology; Miss Ada Anderson and Mr. Jake Allen, English; Mr. Michael Dilisio, history; Mrs. Tricia Leslie and Tracy Ball, business, Ms. Wendy Steckler, special education and Miss Carolyn Munk, business.

"I love teaching math and I really like Mooresville High School so coming to work is really nice for me," said Ms. Nicki Manion.

With the many new teachers at school some students found it a little bit nicer at school.

"This year seemed like there was a lot more young teachers and there was a more laid back attitude to a lot of things. I liked it better," said senior Brittany Crafton.

There was also some additions to the guidance department. There were new guidance counselors Mr. Matt Swaim as well as Mrs. Stacy Nelson.

"This school was a lot of fun and I liked participating at the pep rallies. I'm glad I chose to work here because there are a lot of great kids," said Nelson.
The Burning Question

What is the best part about teaching High School?

"I like to see the kids mature from freshman through graduation. They're all my grandchildren."

"I get enjoyment in teaching what I know. It's nice to see the kids pick up a process and learn technique."

"It helps me stay up in fashion."

"It is more satisfying to see the upper level groups do more intricate levels of music and it's nice to see them learn something that a college level choir could."

"My students make me laugh which makes it fun to go to work everyday."

ACT
Imagine all of Arnold Scharzenegger and Jean Claude van Dam’s movies put together — that is the tone for MHS’s sports. Running, kicking, diving and hitting are few of the actions that the student athletes performed on a daily basis. The athletes spent numerous hours of practice and preparation perfecting their skills, the same as if the Rock were preparing for his next high action, high energy movie. Though MHS athletes weren’t paid millions of dollars, their pride for the school was priceless.
Valuable PLAYER

Definition: Swing

A stroke or blow delivered with a sweeping arm movement, the driving power of which something swung or hurled.

Sophie Davis, Ashley Mayes, Shelby Wiser, Heather Warthen, Coach Allison Beam.

SWING

Young team shows that less can be more

by: Melissa Fears

With only four team members, it was crucial for the girl's golf team to pull together. The season showed off many first year members, including Coach Allison Beam. "For her first year as our coach, I thought she did well," freshman Sophie Davis said.

Since the team was so small, the girls got to know each other better. "We all got along fine, and we always had fun," freshman Ashley Mayes said. "We found out we all fit on a golf cart."

All the girls agreed on one thing, that even though they only won a few matches, it was still a good experience. "All my teammates have great potential. Sure a few matches could have been better, but three of us just started," freshman Heather Warthen said.

Sophomore Shelby Wiser said, "I had to fill in and help the underclassmen and set good examples for them."

One of the team's best matches was at Sectionals. Mayes hit her best score during the match. The team practiced about two to three hours everyday after school. Wiser said, "I think our team will be better next year and the year after, since we are so young now."

Heather Warthen, freshman

"There is a definite advantage to having such a small team. Everyone gets to play and you know your score will count."

Freshman Ashley Mayes prepares for a swing during an away game at Winding Rivers against Southport.

Huddle

Team unity shows with all the varsity boy soccer players come together in a huddle. This tradition was continued at every game. “We had a great season this year and hope they start where we left off this year,” senior James Howard said.

KICK

Junior Richie Sheckler passes the ball to a teammate.

Senior Matt Evans and Junior Wyatt Allegree steal the ball.

Senior Zach Wathen steps in to take the ball.

Junior Steve Shimonek fakes a play during a game against Martinsville.

Senior Dan Whitman clears the ball up the field.

Photo Courtesy of Indiana School Pictures
Freshman goalie Adam Shawl kicks the ball back into play, as the ball was played back into the area by J. Birchler M. Evans, with the team thought that playing Bloomington North was one of the best games they played together.

Junior Chris Hawkins blocks a kick from a Bloomington North player. Much of the team thought that playing Bloomington North was one of the best games they played together.

Individual weaknesses were overcome by team effort by: Melissa Fears

Members of the boys varsity soccer team combined their strengths to create a winning team. "I am an unselfish player, but I lack confidence in my skills," junior Wyatt Allegree said.

For others, their strength is more physical. "My strong point is power, and my weakness is stamina," said senior James Howard.

For senior goalkeeper Kevin Farmer, his weakness is diving to the left. The team pulled together in its game against Plainfield, which team members considered one of their best games of the season.

Every great team needs practice. On average the varsity team practiced between ten to fifteen hours a week to stay in shape. "The biggest accomplishment for me was being one hundred percent, every practice no matter what," said senior Matt O'Neil.

Many of the senior athletes have been playing soccer for most of their lives. Senior Zach Wathen remembered, "I've played soccer since I was a little kid."

Many of them plan to continue on with soccer in the future. Senior Matt Evans plans on continuing soccer either at IUPUI or the University of Indianapolis.

All in all, the team came together to have a winning season in the eyes of many. "Our team was very strong on the field. We played a very physical style of soccer and still kept our heads in the game," senior Dan Whitman said.

"I can play rough, so it can be both a strength or a weakness if I don't control it," said senior Jake Mills.

The team this year proved to have the best record Mooresville has ever had.

Definition: Steal

To take the property of another wrongfully and especially as an habitual or regular practice.

Underclassmen steal leadership skills from team captain

by: Justin Khosravi

What is a leader?

Leadership in the dictionary is defined as the office or position of a leader.

This season senior Megan Shimonek displayed great leadership amongst her teammates on the Girls Varsity Soccer team.

In their games, the team came together to pull out a great, successful season. Much of their success was a result of Shimonek's leadership skills.

"Megan always knew what to do. We will all miss her very much," junior Melissa Hacker said. "She was a great leader." All the girls on the team worked very hard and made a great contribution to the team. This year, for some of the girls, was their first year playing soccer. Being a varsity player for their first year was difficult for some of the girls.

"I was surprised how well I did for it being my first year. Plus being on varsity it was more of a challenge, but it helped having such a great team to look up to," junior Brandi Prosser said. "I thought our team did really well and in the end we were like domination station of girls soccer all over the world," junior Kayla Smith said facetiously. At the end of the season the girls were happy with how well they did. They all look forward to a great season next year.

Senior Jon Dowden serves the ball to his opponent. The volley was played out and resulted in a point for Dowden.
A tennis season without regrets

by: Justin Khosravi

With only two seniors, the Varsity and Junior Varsity tennis teams still came through with a good season. Even though the season went well, there were still some regrets from the members of the team.

"I thought I did well, but I don't think I lived up to my own expectations and I thought I could have done better," junior Scott Evans said. "The worst part about the season was probably not playing to my full potential," Evans added.

"The team did okay this season. We have improved over the three years I have been on the team," senior Drew Thurman said.

Regardless of their regrets, the team still did many great things. Bloomington North is usually a team that defeats Mooresville every time. However this season, things were a little different.

"The best part of the season was when we beat Bloomington North. It made me really proud," Thurman added.

"I was happy to play varsity, but I only got to play varsity for about half the season. I'm hoping to play varsity the whole season next year," junior Thad Miller said.

Even though the members of this year's tennis team had some regrets about their season, the good things outweighed the bad, and resulted in a tennis season with no real regrets.

Junior Scott Evans backhands the ball to the other side of the court to his opponent.
Junior Courtney Demeter, 11

"It took a lot of work to fill in for Katie Brant's absence. However, the team still came through with a good season."

The girls cross-country team did outstanding this season. Winning county and defeating many excellent teams brought them a great season. All the girls worked very hard and their teamwork played into their victories.

Having the best season of any girls cross-country team in the several years at MHS gave the girls high hopes and spirits for performing in their competitions.

Sophomore Heather Woods sprained her ankle in one of the competitions. However, regardless of being out for two weeks, she still pulled through and helped the girls achieve the goals that they had set for themselves.

"I thought that we did really well, because we won county and we lived up to most of our expectations," Woods said.

"I thought I did pretty good this season. I improved a lot compared to last year. The best part of being on the team was the team itself. All the girls are a lot of fun to hang out with," sophomore Ashley Vance said.

The young cross-country team accomplished a lot this year. They plan hopefully do just as well next year.

Some of the girls relax before the Mooresville Invitational. The girls finished third of five teams, and runner Kelsie Kanouse broke the tie with Greenfield Central, who placed fourth.

Leadership comes in all grades and sizes

By: Olivia Breedlove

Running, running, conditioning, and a little bit more running is the recipe of preparation for the cross country season.

The team won Mid-State Conference, Morgan County, the Decatur Invitational, and the Golden Spike Invitational. At Mid-State the team had four runners place in the top five.

The team contained a lot of younger leadership, but the seniority became key throughout the season.

"The most inspiring person was all of the team, but to single one out it would be Chris Vaughan," said freshmen, Nathaniel Hagee.

Having large team of 12 members really helped out. The team worked hard preseason which showed throughout its many successes during the season.

Administration serves up fourth coach in fourth year

by: Olivia Breedlove

A new coach isn't much of a surprise for the volleyball girls anymore. For the seniors on the team they have had a different coach each year they have played.

"It's difficult adjusting to a new coach each year for the past four years," said senior captain Kelsie Wys. The volleyball team set out with an expectation of being over .500 but unfortunately did not achieve it.

Although, at the Zionsville tourney they played exceptionally well. "We did so wonderful in the Zionsville Tourney, we showed how good we 'could have been' in those games," Wys added.

Even though their record did not show much, it really did not do the team justice. The girls improved on things each and everyday.

"Most teams want to accomplish more wins, ours was just sticking together all year as teammates and friends," senior Kassidy Turner said. The team worked really hard with two to three hour practices every day after school and with a long season of 27 games.

Every practice seemed endless but with junior Kelsie Lockwood on the team it was different. "Kelsie Lockwood inspired me with her words of wisdom everyday, she kept me going," Turner said.

The team became closer toward the seasons ending. Hopefully with the united team the same coaches will help support them next year.

**JV/Freshman Volleyball teams makes perfect example of phrase, “practice makes perfect”**

By: Justin Khosravi

The Junior Varsity volleyball team displayed a lot of great effort throughout the season. They worked all season to be able to pull together at the end. "We really weren't very good at the beginning of the season, but the last few games, we finally learned how to play as a team," sophomore Charisse Andry said.

Playing as a team was a very crucial quality that the girls needed to be successful.

With a large amount of time, they started communicating more and more and gradually became a very outstanding team. In the beginning of the season, the girls did not live up to their expectations.

However, the more the girls practiced, the better the girls became. It wasn't long before the team of girls started working together and excelling in what they did.

"We didn't start doing our best until the end of the season. The more we practiced together, the better we became as a team," junior Olivia Breedlove said.

Goals are very important to achieve, so a good thing to always remember while trying to achieve a goal, is "practice makes perfect."

One of a kind team advances all the way to Regionals

by: Melissa Fears

For the varsity football team to be the first undefeated team to go through Mooresville High School is something hard to explain. "We just took it one game at a time, forgot about the winds behind us, and just concentrated on the upcoming game," Coach Mark Bless said. The team finished with a great 12-0 season and advanced all the way to Regionals.

"We cared for the teammates more than ourselves. This year's team was closer, with more determination and wanted to reach every goal," senior Leland Kinnett said.

"Those seniors I had, there's nothing like them. They had a special bond," Coach Steve Hilligoss said.

One of the most anticipated games of the season was the first game against Roncalli. The team won, but lost to them in Regionals.

"I think the turnovers we made in the second game cost us, but our defense played much better which kept us in. It came down to who could make the last play," senior Kyle Mossbrucker said.

Starters for next season have a lot to live up to. "Sheer numbers of course is a concern as well as experience, but leadership is not a problem, because of this year's leadership," Bless said. "When you're in a routine, and you're successful, you don't break the routine," Hilligoss said. Coach Bless, for example, shook every player's hand before the game ending with the seniors. He then went on to shake the coaches' hands starting with Hilligoss and ending with trainer Fred LePlante before kick-off.

"I think that the most important thing was than when you have a love for your brother, you can do great things, and that bond you have fuels you to do so. This was the greatest team I've ever had, and I've had a lot of great teams," Hilligoss said.

Talented teams bring bright outlook to future

by: Olivia Breedlove

The goal of the Freshmen and JV teams was to have a successful season. They did just that and more. JV only lost one game and the Freshmen were undefeated and named Sectional Champions. These two teams have a bright future ahead of them.

The team prepared with the Varsity all summer, working hard to achieve its goals. Therefore they had the same plays as the Varsity team.

"Preparation before the first game was the hardest part of the season," sophomore, Kevin Oschman said.

Freshman Adam Viles added, "After a game when we had practice was one of the harder times."

Both teams agree that the Roncalli game was the most important of the season.

"The thing I remember most was the Roncalli game, not because it was the best game but because we beat them on their field," Bosworth stated.

"Most memorable was when we beat Roncalli in overtime," sophomore Sean McCammack said.

The JV team did exceptionally well by never allowing the opposing team to score more than one touchdown. These two teams displayed leadership and focus.

In the next few years MHS will have to wait to see how these teams develop and what kind of performance can be expected from them. As they continue practicing and gaining more experience, it is hopeful that the freshmen and JV team resemble the Varsity team.

"This team is very similar to the seniors. I see success in their future," Coach Matthew Bosworth said of the freshmen team.

Fly
Proving cheerleading really is a sport
by: Justin Khosravi

There are good and bad things about every sport. There are hours of practicing, hostility between teammates, and other bad things about the sport. However, for the fall cheerleading squads, positivity prevailed this season.

“There were a lot of highlights this season for me and the rest of the squads, like being on channel 13 and doing well in competitions. I thought that we could have all bonded more, but we were still pretty close overall,” junior Heather Wilson said. Being able to get along with each other is a crucial quality for a good team to have.

“I really liked the competitions, but I didn’t like the fact that we had to practice all the time,” junior Audra Eckstein said.

“I was happy that we were undefeated. That was the highlight of the season for me,” said freshman Stephanie Kerr.

Regardless of whether or not some people think cheerleading is really considered a sport or not, it still consists of the same hard work, dedication, and teamwork which is a requirement for a sports team.

Heather Wilson, Junior
“The highlight of the season for me was when we were on Channel 13 for cheerleaders of the week.

Junior Lindsay Faull warms up the crowd during the Homecoming Pep Rally.

Talented teams bring bright outlook to future
by: Amanda Heinsman and Jessica McCauley

Training, meets, and long practices were just a small part of the contents of the successful MHS wrestling team.

The team experienced a successful season, both as a whole and individually. Junior Alex Warren attended state competition for the second year in a row.

"I think I did really well. I was thinking about going down a weight class because I knew I could win in that one but I decided to stay in the one I was in. I'm not completely satisfied with second but I think I did well," Warren said.

Not only did the team have powerful individuals, but the team as a whole was improving. The team improved both its game and its strength this season.

"The difference between this year and last year was that [the team] went out tougher. We didn't give up as easy. A problem we used to have was we would not be as hyped up when we went out, but this year every one put forth a good strong effort," Warren said.

Hours of practice add up to a great season

It is a lot of fun. You make a lot of friends and get in great shape.

The hardest part of practice was the kicking drills. They are hard.

The girls swim team is still new, but they have proven they can handle it. The girls all had different reasons for joining.

Freshman Ashley Oberting said, "I have always liked to swim and it keeps me in shape over the winter."

Senior foreign exchange student, Yumi Takahashi felt she had improved. "I did not make the school record, but I improved my personal time. It made me feel great," she said.

Takahashi said that joining the swimming team was the most impressive memory from her exchange student life.

Freshman Jessica Reecer also had a lot of fun. She made several friends, and got great exercise. The best thing for her was having competition during all of her meets. She had been swimming for three years, starting in junior high.

Oberting said the hardest thing for her was doing all of the kicking drills in practice. The hardest thing for Reecer was the finals, because there were a lot of great athletes.

Oberting hopes to get more girls on the team next year. "My goal next year is to push myself and work harder to help us come closer to winning meets," said Oberting.

Senior Derek Burton explodes into the water. Burton regretted taking off his junior year, but improved throughout his senior season.
Dedication pays off in breaking records

By: Olivia Breedlove

The boys swimming team worked hard all season and broke various school records. The team dedicated many hours to practices and meets, while accomplishing their goals and breaking school records.

"The hardest thing about this season was the practices, we almost kill ourselves in practice," sophomore Scott Huffman said.

The team’s main goal was not only to break school records but personal records as well. Many members broke personal records they set for themselves and set more school record.

"The most important meet of the season would have to be Sectionals," said freshmen Logan Rollin.

The team prepared for sectionals throughout the season. They hoped to break records and place in the top five. The team may not have had a great season on paper, but they worked hard for everything they accomplished.

Freshman Kaleb Land stated, "I thought we did pretty well. We had some room for improvement, we can improve over time."

"I feel that hard work and my dedication has paid off in such a long season."
-Brandon Doulaki, senior.

"I think we did pretty good. A lot of us broke school and personal records."
-Scott Huffman, sophomore.

"[This season] I think we did better than last year. Which is pretty good."
-Nick Walkdschmidt, sophomore.

"I thought we did well. We may not be the best but we’ve done well. It’s a great team."
-Logan Rollin, freshman.

Basketball Team Proves There is No Need for Improvement

By: Justin Khosravi and Olivia Breedlove

The Boys Varsity Basketball team did exceptionally well this season. With a win to loss ratio of 9-12, the boys were able to say they were proud of their accomplishments.

"I have been playing basketball for three years. I think I have improved in my overall game," junior Tyler Davis said. "I hope to improve even more by next year," Davis added.

The boys of the Varsity basketball team do have room for improvement. However, one could say the same about any team. There can always be room for improvement. Regardless of the teams win to loss ratio, they still worked very hard and are excellent athletes.

"Overall this season, I think I played well. I was pretty satisfied with the way my last season of high school basketball went," senior John Fields said.

The team suffered some tough losses throughout the season but only one rises to the top.

"The worst part of the season and the toughest loss was losing the first game of the Sectional to Terre Haute," Fields said.

The seniors played a key role in the team's accomplishments. They dedicated themselves to the team and strived to make each individual successful.

"It is a great accomplishment for these seniors to lead our school to back to back conference championships. These young men will be successful in everything they do because of their determination and intelligence," Coach Wes Neese said.

Apparently most of the team was satisfied with the season. Therefore it is safe to say that there is room for improvement, but there is no need for it.

The team

Fun Fact: While taking a shower after practice, one of John's teammates got the ice bucket and dumped it on him.

Working their way to Varsity level

by: Melissa Fears

The team definitely showed that they can achieve what they want. There were one freshman and one sophomore who were members of the JV team as well as the Varsity team.

Freshman Trent Mosbrucker started playing basketball when he was in kindergarten, and has enjoyed the transitions for each year. His best accomplishment was learning how to play at the high school level, but he still feels he needs to improve a lot. His favorite part of the season was when he made the game winning shot against Franklin in overtime.

“My highlight of the season was when I made my first two-handed dunk after practice,” said sophomore Thomas Wright. Wright enjoyed the season as well. The funniest moment for him was when Coach Wes Neese split his pants in the locker room during half-time. He thought he improved his shooting average because now that is his strong point.

Some pre-game rituals were listening to i-PODs and eating out. The team even wore their favorite player’s jerseys, junior Chris Hawkins wore his Michael Jordan jersey. The hardest thing for Hawkins was losing after the team was ahead at half-time. Overall the team agreed they were proud of themselves for achieving what they had.

At the Sectional Martinsville game Sophomore Caitlin Dougherty shoots the ball against her defender. "The game was a tough loss, but I think we gave it our all even though we should of beat them." Dougherty said.

Before the season started some would speculate the Girls Varsity team as underdogs, but tying for first in the Mid-State Conference and only losing seven games contradicts that. Unfortunately, they lost in the sectional conference to Martinsville.

"The hardest thing about this season was probably losing in the sectional championship game because we felt like we had to achieve as much as they did last year and make it as far," sophomore Caitlin Dougherty said.

The team only had one senior, Kelsie Wys, so the underclassmen played a key role throughout the season. The girls accomplished a great deal without thinking they could.

"We were a young team and a lot of us hadn't played together so being able to talk as much as we did was an accomplishment," sophomore Kayli Schafer said.

The team came into the season with low expectations but came out of the season with even higher ones for next year.

Schafer concluded, "No one thought we were going to be good since we lost five seniors last year, but I think we proved everyone wrong and have a lot going for us next year."

JV Team
Girls’ basketball teams have a rough start but do their best

by: Amanda Heinsman

The girls’ basketball teams had a year of improvements and drawing together to function better. Freshman Lindsay Standeford said, “The team improved on being a team and working together.”

Individuals of the team also had a shaping year as far as their game and character. Freshman Krystal Carson said, “I improved on keeping my head up.”

Teammates drove themselves to do their best they could and reach losses.”

Freshman Brooke Prosser said, “I did the best I could and I wanted to improve every game.”

The changes the team went through during the year became apparent as the year went on. Although the team had a rough start, they played to the best of their abilities.

Freshmen Sophie Davis and Amanda Hundertmark and sophomore Jessica Mann watch as their teammates play against Southport.
A tradition unravels excitement

At every home game, the starting five were announced before the start of the buzzer. The cheerleaders liked to get involved in this and made it even more exciting. When a name was announced a cheerleader unraveled a banner with the player’s last name on it. They did this while on a builder’s shoulders. The girls worked to be able to do this and have a trusting relationship with their fellow teammate below them.

Definition: Chant

To make melodic sounds with the voice. To recite in a monotonous repetitive tone. To celebrate or praise in song or chant.

Junior Audra Eckstein gets lifted by fellow cheerleaders, junior Brittany Goodman, and sophomores Jennifer Braun and Courtney Hacker. Eckstein was a first year cheerleader. “It was fun and there wasn’t too much drama with the girls, I had a really good time,” Eckstein said.
The Gold Squad cheers on the Varsity girls basketball team. "I think we all united together this year and worked hard together to accomplish more like homecoming and other competitions," sophomore Colby McGuire said.

Team goals accomplished throughout entire season

by: Olivia Breedlove

All the girls on the winter cheerleading squads had numerous goals for throughout the season. The squad worked to reach their goals and accomplished all of them by the end of the season.

"Mainly all the goals we had this season were stunts and overall becoming better at cheerleading," freshman Katie Jo Jennings said.

"We accomplished all our goals which were making the most of all the talent we had," junior Kayla Smith said.

Some members on the team worked hard toward their own personal goals as well.

"My goals at the beginning was to make all stars at cheerleading camp, get along with the other girls, and just improve as much as possible, and I achieved them all, so did the squad," sophomore Colby McGuire said.

"My goals was to get my build up with the heelsketch and I got it and to get my jumps higher," sophomore Jennifer Braun said.

Cheering at basketball games isn't the only thing these girls did. They also had competitions throughout the season. Long, hard practices were expected in order to get ready for them.

"I think the hardest thing was getting ready for competitions. We used to work very hard almost everyday and we stayed up until three in the morning one time," Braun said.

The team accomplished a lot including learning new stunts, uniting together, and working together during homecoming and competitions. The squads helped raise the bar of Mooresville cheerleading.

"I think this is the best year we've had. The group of girls worked really well together and we accomplished a lot of stunts and new cheers and I think we worked hard. The whole cheerleading part was memorable. I will never forget the seniors and my friends," Braun added.

Girls track team shows off its girl power

by Justin Khosravi

The Girls Track team this season has made a fool of those who call boys more athletic and stronger than girls. Junior Kayla Smith had one of the fastest times in the history of Mooresville girls track for the 100 yard sprint. She also did a great job performing the hurdles.

"I was very satisfied with how I performed this season. This season was better than any other season I've had. Not just for me but for the whole team. I will miss the few seniors a lot because they were such great teammates," Smith said.

"I am going to miss the seniors a lot because I always looked up to the seniors and took advice from them a great deal of the time," junior Kesley Box said.

The girls had great accomplishments with their season. They had their losses and their down times, but they always picked their game up and made up for the losses with some incredible wins.

**MHS vs.**

*Sophomores Derek Farnworth and Dean Rothenberger at a meet in Plainfield.*

Top: Senior Justin Bain attempts jumping over a hurdle during a meet against Martinsville.

Junior Zach Scaggs gains his balance after completing a jump.

The boys track team made it all the way to Mid-State, winning first place, along with the coveted trophy. The hardest part for senior James Thompson was all the hard competition.

For others, the hardest thing was not letting the success go to their heads. The team had many hard meets. For some, it was Mid-State or Sectionals, or the Center Grove meet. The team practiced after school. They ran miles, and they participated in various weight lifting exercises.

Most plan on continuing running for the team next season. Even for the first year members, they all bonded together. "The throwers," for example," said Thompson, "All go out to eat together before a home meet."

Rothenberger said, "The 4x800 team prays together before every meet."

Overall, the team had an impressive season. "I did not believe we would be as good as we are," said Thompson.

A new beginning evolves
into a new ending
by: Olivia Breedlove

The Varsity softball team did better this year than they have in quite some time. With rookie Coach Traci Ball coaching, the season went surprisingly well. Bringing in a new coach means bringing in different rules for the team.

"[The hardest thing about the season] was the adjustments to new coaches, rules, and positions," junior Tasha Clampitt said. Both teams started off to a bumpy start but pulled through by mid-season. Every game the Varsity team lost was very close. One highlight of the season was beating Ben Davis.

"That game was the most important because we won by one in extra innings," senior Sadee Rozzel said. The teams had to adjust to a lot of different things this year, but they didn't let that stand in the way of their goals and their talent.

"All the girls on the team are troopers for making through new change and ups and downs," Clampitt said. With an overload of freshmen coming to JV, the team was a little scared of what would happen. At the start of the season their worries disappeared when they saw what the freshmen could do.

"We all improved so much, and we really came together as a team, we could of done better but I'm happy with our accomplishments," freshman Lindsey Standeford said. The Martinsville sectional game was a big upset to the team only losing by one. "When we lost to Martinsville only by one it showed how good we could be and how good we are gonna be next year. We are going to come back next year and have a winning season, so watch out!" sophomore Priscilla Rozzel said.

"At the beginning we struggled but throughout the season we improved tremendously." -Freshmen

Caitlin McCammack

"Even though I didn't see much playing time it was still an experience." -Junior Tasha Clampitt

**Freshmen**

**Definition:**

Launch

To propel through the air by a forward motion. An act of throwing, hurling, or flinging.

### Teamwork reveals improvement and accomplishments

**by:** Olivia Breedlove

The freshmen and JV baseball teams have one thing in common: teamwork. The team came together and accomplished many things. These two teams showed that you can achieve almost anything with a little teamwork.

"The first couple games we didn’t play together and we didn’t pick each other up, but toward the end of the season we came together and achieved many goals," junior Thad Miller said.

The freshmen team had pitcher Nick Davis to pull them out of some tough situations. Davis led in pitching with the most strike outs and the most wins. Spencer Roloff was a key offensive player for the team.

"[This team] was one of the most enjoyable groups to coach because they care more about winning than individual statistics. They have great team chemistry which helped them win games and make the season fun," Coach Thomas said.

For the JV team sophomore Jayson Dowden led the offense with a .450 batting average. The JV team struggled at the beginning but came out on top at the end of the season.

"I enjoyed playing on the JV team, I had a lot of fun and we played as a team. It was nice to see the team come together at the end of the season and I’m happy I got to experience it," Junior Marc Roberts said.

"I was really happy with the way the season ended. I'm looking forward to next year and to setting higher goals for us," Miller added, "In the end teamwork really did pay off."

### COACH

**Name:** Wesley Neese

**Age:** 26

**Duration of job:** Three years

SENIOR ROSTER

Team stays strong through ups and downs

by Melissa Fears

Even though the varsity boys baseball team didn’t do as well as they had anticipated, they proved they could ‘tough it up.’

Many players had different and individual highlights throughout the season. For example, the best part for senior Deric Miller was the weekend-long Fort Wayne Tournament. However, for senior James Howard, his favorite part of the season was an individual accomplishment.

“The best thing was being considered the number two pitcher on the team after John Fields,” Howard said.

Miller said he thought the year gave him a chance to have a better batting season. He hopes to be a walk-on at Indiana State.

The team did hit its rough times, such as when it played Terre Haute South. The game was considered the hardest by the majority of the team.

At the completion of the season, the group bid farewell to the leadership of 10 seniors.

Hours of practice add up to a great season
by: Melissa Fears

Although the team didn't win as many meets as planned, they still accomplished a lot for such a new team. With no seniors on the team, the team stood its own. For many of the girls, this was their first year playing at high school level. The team is still growing, and it was hard taking some of the losses said some members. Sophomore Kayli Shaffer took a brighter approach, "We won more than we did last year though."

The best part of the season for junior Marie Angermeir, "I was able to play the spot I wanted; I love playing doubles." The team keeps in shape by multiple practices a week, along with off-season conditioning and lessons. For Angermeir, her strong point is backhand, which said was unusual, because for most it is forehand, the most common.

With a few wins behind them, the team has more to look forward to next year, as all the team members will still be playing.

Junior Marie Angermeier practices her backhand after school.

Some of the team waits before the meet starts at an away game.

Boys golf team accomplishes high goals with hard work

by: Justin Khosravi

Golf is a very complex sport. It is not a tiring sport that wears a person out; however, it takes great skill and concentration to perform well. Junior Steven Tutterow, the most valuable player, portrayed a great example of what it means to be a skilled golf player.

"I was proud to be considered the most valuable player. It was an honor to play with such great and dedicated teammates. Even though it does not take much team effort for golf, we still helped each other out and motivated each other," Tutterow said.

Every player was a tremendous asset to the team. Each individual player worked very hard and did very well.

"I'm sad to say that this is my last year of high school golf. It was a great last season, however. The team did great and everyone got along really well. I will miss everyone a lot," senior Drew Thurman said.

The team got along very well which was key in accomplishing their goals of a good season. They encouraged each other a great deal of the time which helped a lot in the long run.

Definition: Aim
To give direction in a consistent manor.
Senior Denali Austin has been playing hockey on a woman's team for nearly two years now. She is one of the few who play the goalie position.

Below: Senior Morgan Breedlove at the 4-H Horse Show.
Some students play outside the lines
by: Melissa Fears

When thinking of a sport, many wouldn't think of bullriding, hockey, and showing horses.

One senior, Jesse Austin, along with his twin sister Denali, have been playing hockey since they moved from Alaska nearly eight years ago. Jesse said he started playing because his dad had played. Jesse found out he made the Team Indiana, which traveled and competes with other state teams in late March. The team practiced every Saturday for over a month for over four hours. The team competed in Chicago April 12-16, and played teams Missouri, New York, Colorado, and Massachusetts. They beat Team Colorado in a hard game. He has also played on the South Star team which plays at Pan Am Plaza in Indianapolis.

Freshman Matt Martin also is involved in sports outside of school. He has been bullriding since he was a little kid. Other students include senior Morgan Breedlove, who shows horses in her free time. She has won a lot of awards doing what she loves. There are also students that enjoy other things like senior Julie Bullard, who has participated in dancing. She has danced both tap and ballet.

Jesse Austin was one out of many young teens to try out for the team. He found out he made the team in early March.

The team received a warm-up outfit when they made the team. "We practically lived in them the entire time," said Austin.
Number of senior athletes: 72
Number of seniors who play two sports: 22
Number of students who play three sports: 3
Number of male athletes: 49
Number of female athletes: 13
Every student feels at one point in their high school career that all they do is study, do homework and take tests. One may like to label that area of their life "horror studies." All of the information comes to the climax of the year, finals. It is quite similar to that of the horror movie "White Noise." Speradic ghosts are shown to scare, and as the grand finale the haunted man dies. Against all doubts and disbelief, students will prevail and not the fear of studies kill them.

STUDIES

Even though there are only two semesters of physical education required on a Core 40 or Honors Diploma at MHS, some students chose to participate in the advanced physical conditioning class, or APC. Many athletes were involved in APC to stay in shape during off seasons.

"I am in APC because I like running and we do that a lot. I also like exercising, and both release endorphins in your brain and make you feel good," senior Abdelrahman Hashem aid.

Not only do guys have APC, but there are also girls' APC classes.

"I am in APC because I need to get stronger because I am in three sports, but I never realized how hard it would be," junior Kayli Schafer said. "This class is a great class to be in if you are in a sport or even if you just want to hang out with friends, because you can talk and work at the same time!"

In gym class, many people passed the time that they were not engaged in activities, such as running and ultimate Frisbee, hanging out and having a good time. "Basketball playing is fun," freshman Emily Boddie aid.

Some students even learned to find humor in the odd things that happened during their time in gym at MHS.

"I had to go out in the cold and the wind for swimming during the fire drill," freshman Sean Denbo said.

Health was another required class at MHS. Students who took health learned about the ways their bodies, emotions, and minds functioned and how to take care of them.

"You learn about sustaining your life and how to make your life better," junior Carrie Ball said.

"You learn how to take care of your self and how to eat right," Jordan Middle concluded.
Plowing on in agriculture

by: Amanda Heinsman

A group of guys huddle around a table in a hot room as Mrs. Tonya Weiss explains the specifications of planting tomatoes. Trays are stacked up on the table and a wheelbarrow full of dirt waits nearby. Each guy takes a tray and they set to work.

Welcome to Agriculture.

"We're learning the principles of landscaping right now," said Mrs. Weiss as guys watered the trays to moisten the dirt. "The guys are learning how to draw landscapes and where to put plants."

For students tired of sitting in a classroom, this class offers a hands on alternative. "Not every class teaches you something," said senior Josh Haney. "This one does."

In Agriculture, students were able to do what they enjoyed doing.

"I like to plant flowers," senior Eric Cottey said. "This class gives me the chance to do that."

Mrs. Tonya Weiss helps sophomore Caleb Baker.

Careers advance with Area 31 program

By: Amanda Heinsman

Everyday students from MHS went to Ben Davis to participate in Area 31. There they were able to take class not offered at MHS, such as Early Childhood, Broadcast and Aviation. For many students these classes allowed them to gain some experience in the fields in which they wanted future jobs.

“I can spend part of the day there and part of the day here. I can also take aviation classes, since they don’t offer them here,” senior Chad Lasley said.

This allowed students to take classes they would later need or would just like to take instead of a study hall.

“What they offer here is completely different. The periods are longer so you can study more and concentrate better. You also get more than one credit for one class,” junior Scott Dong said.

Mrs. Claudia Goodwin from the Area 31 office said, “Some students think they might find a career and they take the program to get experience in it. Also with this program students got dual credit hours, so you get credits for high school and for college. That allows them to save money and get a jump start on college.”

Junior Danny Richart took computer class at Ben Davis as part of Area 31.

Junior Brian Radtke types up credits for broadcast. The class worked on music videos first semester.
By: Amanda Heinsman

Out on the west side of the back parking lot a group assembles in a large garage to work on and take apart cars.
This is the MHS auto class.
Auto was a great class to further your education to becoming a mechanic. It helped students learn how to fix your cars so they didn't have to pay to get them fixed by someone else.
"I like this class because we get to work on our own cars," Anthony Thacker said. "When you get to college they expect you to know these things and this class helps."
A big difference from the other classes offered at Mooresville was the hands-on experience gained from taking the class.
"I wanted to learn how to work on cars," senior Jason Bryant said. "You get to do hands-on stuff [in this class]."
An enjoyable and practical class to take, many people took auto because of their love of cars.
Sophomore Amy Brawn said, "I like auto because I love working on vehicles so I am able to learn new things and have fun doing what I love."

Many types of business classes were offered at Mooresville High School such as, accounting, business foundations and keyboarding.

Students also welcomed several changes to the faculty of the business department such as the addition of Mrs. Tricia Leslie and Miss Tracy Ball. Also, Mr. Karl Brown switched from being a guidance counselor and also taught in the business department.

"I like teaching here because I have a lot more freedom on what I can teach!" said Miss Ball, who previously taught in Danville.

Freshman April Kline enjoyed completing a Great Mail Race project in Miss Ball's class, "We had to type a letter to a high school in another state to see who could get a response the fastest. We had to ask questions about their school and tell them about ours. We told them our school colors, our mascot, and how many kids are in our school."

Keyboarding also helped students learn more about computer programs using Word, Access, and Excel.

Accounting, another business class, taught students how to manage their money and balance their checkbooks.

These classes were helpful to students in future careers no matter what they chose to do.

"I want to be the best teacher I can be in the future, so I thought this experience would prepare me," said senior Valerie Young.

Students at MHS had an opportunity to cadet teach during their senior year. Some cadet teachers just copied and graded papers, but it gave them an idea of how much time it takes to grade papers.

Senior Matt O'Neil said the most unusual thing that happened to him while he was teaching was that he had to break up a fight in the boys bathroom.

Cadet teaching helped the future teachers learn more about the job and understand ways students learn. It also gave them a chance to learn different teaching methods.

The seniors also had the opportunity to go on field trips with the students, and had the opportunity to see how the students interact outside the classroom.

Being a cadet teacher taught the seniors how to cooperate and be patient with others.

 Though English is a required class at MHS, it was still a favorite of many students.

In English students began to learn about writing papers and about all the different forms of literature.

"My favorite genre of books is science fiction. It's realistic and yet things happen that we can't actually make happen," said junior Alex Brown.

Students began to get more freedom and flexibility with being able to choose the nature of their projects and papers. Creative writing gave the flexibility of making up stories and presentations are a favorite of students as well.

Overall students at MHS generally enjoy their English classes and the creative freedom they allow.

"I really like English. The stuff you learn in there you get to use later, like knowing how to spell and stuff," junior Justin Reynolds said.

Creative Exploration of your world

by: Amanda Heinsman

When thinking about science you might not normally think of students building roller coasters, rowing across a pool in a boat made only from cardboard, or participating in a mock plane crash. However at MHS these are just some examples of the activities that students participated in, in their science classes.

Three years of a science are required to graduate with an Honors Diploma at MHS. The options range from earth science to AP physics, allowing many options for students.

Many different science classes worked on various projects throughout the year. Mr. Dale Graves physics classes were offered extra credit for constructing a boat out of cardboard while Mr. Joe Johnson’s Biology I and II classes dissected frogs and sheep organs.

"I'm taking Anatomy so I don't have to take it in college. I want to do what they do in CSI so the dissections help," said senior Ashley Harpe.

The variety of classes offered and the hands on learning was a big motivation for students to take science classes at MHS. Junior Kim Stimetz said, "Anatomy is a good class to take if you aren't good at chemistry. I don't really like the dissections but it also helps a lot if you want a job in a medical field."
by: Amanda Heinsman

At MHS, students are required to have three years of a foreign language or two years of two different foreign languages to graduate with an Indiana Academic Honors Diploma. Many students, however, enjoy the freedom that knowing another language gives them.

“We thought we needed to know another language,” freshman Amanda Huntermark and Junior Whitney Wright said.

Knowing another language gave students the opportunity to be able to travel to other countries and understand the language, as well it also opened up career options.

“I want to know French so I can go to Quebec, because I know someone who lives there,” freshman Sara Potter said.

A foreign language also exposes students to other people and their ways of life and looking at things.

“I enjoy helping kids discover a new world,” said French teacher Mrs. Elizabeth Bredinger. “I decided to teach French because the culture and language was interesting to me.”

Students also were able to joke around with each other and communicate thoughts or ideas in another language.

“I really like speaking Spanish to my mom, because she doesn’t understand what I am saying,” junior Nichelle Sturm said.
Above: Juniors Rachel McKinney and Cori Jackson discuss their project. Spanish III students made posters of various animals for this project.

Left: Junior Devin Stenson concentrates on getting his assignment done for Spanish III.

Aside from the usual books and desks, when one walks into Ms. Joyce Gilly's American Studies class one might see students giving presentations, taking notes, watching taped projects, or debating with one another.

"We've learned tons of stuff. We learned a lot about the Indians being forced off their land and how brutal it was," junior Angie Woodrum said.

In World History students learned about different cultures and civilizations from around the globe.

"I love history. It's more interesting than fiction because you can't make up the crazy stuff that people do," Mrs. Tricia Ferguson said. "Students should understand why our country is the greatest country in the world and why it is so great because average people have shaped what it was going to be.

Very different from English, science, or math, students often found history to be a break from routine classes.

"History is my favorite subject, because I think it is the only thing that's useful in school," freshman Jannet Benedict said.

Many teachers used projects and presentations to give students a new look at history. Gilly and Mrs. Ann Phillips' American Studies class worked on several projects during the year.

"My favorite project was the Slave Narratives," junior Carrie Ball said. For this project students read an assigned slave narrative and taped their own presentation of the story.
Far Right: Juniors Stephanie Quinlan and Scott Evans look over the script before they record the Fast Break.

Students that are in the action all the time

by: Kourtney Forrester

Journalism is a class where students learned to write news articles and talk about current events. Sophomore Cody Farrand said that was what he enjoyed most about journalism.

"I like Journalism II because we do a lot of hands-on activities. It ranges anywhere from producing our own Broadcast shows, to learning layout and design to make spreads in publications. "It is a fun eye-opening experience to explore the different areas in journalism and decide if journalism is something you personally would enjoy," said sophomore Jennifer MacKenzie.

Journalism I was a prerequisite to be in broadcast, yearbook or the school newspaper.

Things at MHS were always changing including broadcast. "We are using multiple cameras and all editing is now digital," said broadcast teacher Andy Marine.

if students decided to be journalists or news anchors. Broadcast and journalism were classes that will help you in the future.
Students perform to entertain

By: Kourtney Forrester

There were many students in choir at MHS. There are three performing choirs, three show choirs, and one concert choir.

Freshman, Danielle Rusie, who was a member of Sensations, said that she liked choir because she liked being with all of their friends. Choir not only taught students how to sing and dance, but it also taught them how to read music.

MHS's show choirs include, Millennium, Finesse, and Spotlighters. "I liked performing because, I like showing off what we learned and trying to entertain the audience," said Freshman Kayla Ballard, a member of Millennium.

Students spent lots of extra hours outside of school performing and practicing for competitions. One of the major events for Spotlighters was the Spotlighter Invitational. Sophomore Derek Farnworth, a member of Spotlighters said, "I liked the Spotlighter Invitational, because there were a lot of people and it felt like I was performing at a concert."

Right: Freshman Marilyn Ragsdale and Holly Matlock perform at Wagon Trails Revue.

Family and Consumer Science

Sciences certain to be used

By: Amanda Heinsman

Students sit in a circle on the floor of room 149. On these days they discuss issues in their lives and different stresses that they must handle every day. Welcome to Interpersonal Relations one of the many different elective Family and Consumer Science classes offered at MHS.

Family and Consumer Science classes were not required at MHS but were very popular electives, especially for students going into jobs where you have to interact with people. Sophomore Nicole Eckstein said, "I'm taking this class because I want to be a teacher and it was listed under things to take."

Students work on projects and in Nutrition and wellness classes students cook and bake various things. Some of the projects in Interpersonal Relations include Brown Bag, where students brought five items that represented themselves, Balloons, where students wrote on balloons how the balloons represent their self-esteem, and Favorite Song.

Most importantly students learned how to interact with people and take care of themselves emotionally. Mrs. Rosie Horein said, "Students learn about getting along in relationships, handling conflicts, self-esteem, and communication."

Photos by: Amanda Heinsman

Freshman Jalena Griffin checks her answers with Mrs. Rosie Horein.
Sophomore Mara Fisher asks questions about the assignment in Interpersonal relations.

Above Left: Chris White, Lance Wilkerson, and Nicole Carter talk and check answers.

Brittany St. John, Savannah Larwence, and MacKenzie Johnson look up definitions. The class often work on projects that help them identify themselves.

Students turn in assignments and chat before the bell rings.

Junior Erin McCaslin works hard in math class.
Transitioning into a new era
by: Megan Shimonek

In order to graduate, every student had to have a certain number of math credits. However, not everyone took the same class. MHS offered different levels of math for students that are more advanced in the subject or maybe not quite as advanced as others.

There was something different about the department last year, though, and it put a shock through many students. In the fall semester, Mr. Andy Miller was called to serve active duty in Iraq. Therefore MHS said good-bye to Mr. Miller and welcomed Kendra Wissel onto the staff. The next change occurred in January, when, after thirty-four years of teaching, Mr. Robert Grosskreutz said his good-byes.

Up until this point Mr. G had been the only teacher to teach AP Calculus. Since that could no longer be the case, Miss Kelly Crawford took over Mr. G's classes. Not having taught calculus for several years, Miss Crawford needed some tutoring from Mr. G on how to teach the class.

"Without G it would have been rough for me and the students. With their foundation already in place, I may have approached problems differently and caused mass confusion. I feel really lucky to have been given the opportunity to teach under Mr. G," said Crawford. Mrs. Amanda Warner then joined the staff to replace Ms. Crawford.

There was not only a change in teachers but in classes. For quite awhile, the order in which students took math class had been as follows: Algebra, Geometry, Algebra II, Trigonometry, Pre-Calculus, and then Calculus (AP or regular). The change was that trigonometry was no longer offered at MHS. It had been combined with the precalculus.

Even with all the changes, students were still able to get through another successful year. More and more changes are sure to come in future years, but the concept of great math at MHS will never change.

- Want to Learn to Paint?
Art, for many people, is a form of expression, a way of showing feeling, and even a way of releasing emotions. Despite many schools nation wide, which have chosen to cut art classes for funding reasons, there were many different art classes offered at MHS. Some of these classes were ceramics, sculpture, painting, media arts, and drawing.

Students were required to take a semester of both Intro 2D Art and Intro 3D Art before enrolling in a more advanced art class. In the Intro art classes students worked on macrame, sculpture, ink printing, scratchboards, and various other mediums. Freshman Jason Sears said, "Art is unique- it varies from person to person."

Students were given the opportunity to express themselves and allowed a lot of freedom in their work during the year. In sketchbook assignments given by Mr. Dennis Amrhein, students were assigned a specific artistic style and allowed to work with it as they chose. Junior Dustin Paug said, "I like being able to work with clay and pointalisism in the same class. It's nice to able to work with both."

Did You...
Teachers: Check those that you did in 04 - 05

Send a student to ISS?
Fail a student?
Fall asleep during class?
Take a “sick” day?
Turn grades in on time?
To make a great school it not only requires a spirited group of students, but a spirited group of teachers. MHS without a doubt had an amazing, diverse group of teachers.

Throughout the year students would work hard trying to get the school pumped up for different events by having spirit days. What came as a surprise was when the teachers would get more involved in the spirit days than most of the students. One thing that MHS students could always depend on was that teachers were willing to do just about anything to help students.

When Project Ignition wanted to get the students pumped up for their new group, they asked Ms. Kelly Crawford and Ms. Joyce Gilley to have a boxing match. Without a second thought, they agreed to it and they made the pep rally an awesome time for everyone.

One thing was for sure at MHS, if help was ever needed for anything the teachers were always more than willing to do it.
ACADEMIC AWARDS

Students demonstrate excellence

Belmont University Cross Country/Track Athletic Scholarship: Zachary Wathen
Indiana State University Football Scholarship: Joshua Jones
Purdue University Valedictorian Scholarship: Kristina Armitage, Derek Bailer and Nicole Riley

COMEDY
Students involved themselves in various activities including one of the many clubs MHS offered. Spending time after school also enabled the students to bond and make jokes. Refer back to the Happy Hands Club in “Napolean Dynamite.” They performed for their school and portrayed the relationship they all shared together while maintaining humor. MHS students were keen on the school clubs while keeping it light-hearted with their enthusiasm, which could perhaps change the name to “Comedy clubs.”
Student Voice

Giving a voice to Mooresville High School Students.

by: Emma Prosser

"The best part of being in student council is learning how to be at a higher standard than other classmates. I love the fact that we can kinda have a form of control over some of the stuff that goes on with in our school," said sophomore Katie Hoover.

Student Council is a big part of Mooresville High School. Each year the Student Body says hello to a new senior class president.

With the new senior class President comes a new way to Mooresville's attitude.

Last year Jacob Mills became the new senior class President.

Mills brought a whole new humor to the school in which most of the school seemed to enjoy.

"Your given the chance to socialize with a bunch of different student councils. The state convention dance was definitely the most fun way to meet other councils, though," said Mills.

The student Council presented the school with many community and school enhancing opportunities.

The Student council hosted a Blood Drive in which many of the student body participated in.

The council also put on a 100 yards of quarters in which the student body gave quarters to make 100 yards full of Quarters.

"My favorite Student Council project this year has been 100 Yards of Quarters. It is my favorite, because it was a really neat idea and we raised a lot of money," said sophomore Eric Felder, class treasurer.

The student council brought the school together in all of these events last year.

Overall they did a really good job of leading Mooresville through all the issues we had last year.

Bring on the new coming year, as long as the Council is here.

My School

Why I Like Student Council and what it does for me

by: Kelsie Wys

I like Student Council because we get to try to help the school and others, all in one club.

We take others' ideas for school projects or the school's appearance and present the improvements to the administration for approval.

We love helping out our community with things like picking up trash, Toys for Tots and blood drives or can drives.

I also love the kids that are always willing to lend a hand and are so generous, as well as the wonderful sponsors.

Other than the good there is a problem that started this year with Student council not being able to meet during school.

As a result of this, we were required to meet before school on Friday mornings. So, if there was one complaint I have for Student Council that would be my only one.

No Need to Stop the Press

Mrs. Due comes in, Goodbye Mrs. Hadley
By: Emma Prosser

Just like the yearbook staff, the Pulse staff endured the stress of having a new advisor.

Mrs. Candice Due, former adviser of the yearbook, took over the stresses of becoming Pulse’s new advisor with the leaving of Mrs. Diana Hadley.

“Mrs. Due is easy to work with, returning members have had to adapt to changes it being her first year. It was a smooth transition though, we have a lot of fun and laugh often,” said Lindsay Faull.

Most of us know what is going on in our world and the pulse let us know what happened in our everyday life here at Mooresville High School.

One of the Pulse’s new traditions was having a page that featured one student in our school each issue so that our school got to know people we see daily but don’t really know.

“I think it was hard to say good-bye to Mrs. Hadley she was such a cool lady, but, we’ve got good leadership on staff,” said Mrs. Due.

“My Favorite section is Vital signs because it is where we hear the students,” said Junior Lindsay Faull.

Senior Jessica McCauley was on both the Wagon Trails and Pulse this year and managed her time well.
Starting from the get-go, again

By: Emma Prosser

With a new school year comes many changes the student body at Mooresville High School has endured much of this "change," to the yearbook staff this "change" is not a new thing either.

The yearbook staff changed advisers again. Miss Ada Anderson was a first year teacher at MHS and a first year yearbook adviser.

The staff had three different advisers within the past five years: Ms. Sharon Eikhoff, Mrs. Candice Due and now Miss Anderson. They have had to adjust to many new rules and techniques.

The advisers keep changing for many reasons. Ms. Eikhoff left after four years for a change of pace, while Mrs. Due became the Pulse adviser when Mrs. Diana Hadley retired after 33 years. This left the position as yearbook adviser open for Miss Anderson.

Miss Anderson brought a whole new flavor to the yearbook. The staff sang a song about yearbook that Miss Anderson made up to motivate the staff about how they love it, and how it is all that they do.

Every year, the staff also elects a new editor and coeditor. This year to lead them Jennifer Hietberg and Jessica McCauley were selected for the role. The girls led them along smoothly and taught them much about the ropes to accomplishing goals.

The yearbook had ten new staff members this year out of fifteen and how to adjust and learning to grow with new people was difficult.

The staff was a very close nit staff and had a lot of fun, they might have had a rocky start with adjusting to a new adviser, but everybody on staff became very serious about making this yearbook an enjoyable book for the school's student body.

"I have had a great group of students to work with this year," Anderson said. "I feel lucky to have been able to work with a group of such talented and dedicated students."
Drug Prevention
By: Emma Prosse

Booths, ribbons, fire trucks? Unity did a lot of new activities last year to promote their mission.

They work hard every year to get out their slogan Understanding Needs In Today's Youth, yet many Mooresville students still are not fully aware of this promotional group.

UNITY sponsored the Crush Cans on Valentine's Day to raise money for the group to have money to do extra activities.

The group also had booths at the state fair and the Morgan County Fair and others.

They had a fire truck with a banner at a parade in town and passed out red ribbons just like every year to get students to recognize drug abuse.

UNITY works hard every year to help the students at Mooresville High School and last year did a great job of carrying on the traditions that make Mooresville High School our school.

Fellowship at School
Student lead fellowship at MHS

By: Emma Prosser

Being held accountable by friends at school is a motivation that many of us do not have. However, there is a small group of students at Mooresville High School that do have this accountability for motivation.

Every Wednesday a small group called Won by One which includes about ten to fifteen people met in fellowship at Mooresville High School. These people were seen around school on Wednesday praying together and many students at Mooresville see them and wonder what they are doing.

Most of the time this group prayed for the safety of every student at Mooresville.

"We have "see you at the pole." This is where Won by One and the school get together to worship and pray," said Senior Rachelle Halcomb.

Many students at Mooresville attend this and do not realize that the students putting on this old, yet affective tradition are the same people praying for the schools safety.

This same group of people also participated in many other activities to tell our community of their belief in God.

A few of these activities were the Wheeler Mission Trip to help the people at Wheeler Mission live better lives.

Won by One also collected money for the homeless on Thanksgiving so that more people in Indianapolis could enjoy the holiday.

Many of these students loved the fact that they could be helping their community and have a support group at school that they could rely on to help them with their needs.

"It (Won by One) lets me know I have support from people here at school," sophomore Jessica Squires said.

"Since, it is based at school it helps to know that you have a support group here," junior Carrie Ball said.

So, if in need of spiritual accountability at school this group was glad to help. Every Wednesday morning at Mooresville High School they invited all students to join.

Educating the Uneducated

Student P.U.S.H. members instill drug free message

By: Kayleigh Adcock

Most students remember when they were sitting in an elementary school learning multiplication and division tables when all of the sudden, they heard the news: PUSH groups were coming in to further inform them about drugs.

PUSH, which stands for Prevention Using Student Help, is an organization directed toward informing grade school and middle school students of the dangers that drugs can bring. According to their sponsor Greg Silver, seventeen groups of seven, eight, or nine members traveled to elementary schools bringing a drug-free message. Many groups chose to play games to help instill drug-free values and bring excitement to the students. Junior Chris Weaver's group chose to play golf. "My group would ask a question, designed around the dangers of drugs and then let the students putt." Weaver said. Other groups brought different games, such as bowling, jeopardy, drunken goggles and twister. Junior Erin McCaslin group's chose bowling. "I think the kids enjoyed the bowling. Dan Whitman sure enjoyed picking up the pins after they'd knock them down." McCaslin said. The groups united and put forth an effort making sure that the grade school students enjoyed themselves and still learned about drugs and their dangers.

"Each group was unique and that has shown with the variety of games." sponsor Greg Silver.

"When we introduce ourselves I say that Weaver's the coolest kid because he has a beard." junior Manda Koerner.

"I think that it's a good way for the younger society to learn more about drugs and their dangers." senior Joey White.

"Watching the kids learn was a great experience." senior Danielle McCorlkie.
"We helped raise money for tsunami relief." sophomore Savanna Collett.

"It was lots of fun when we were in the parade." freshmen Sara Potter.

It was really fun and we got to teach kids not to make wrong decisions." junior Alicia Skirvin.

How do Humans test their knowledge? In many ways, but a select few students at Mooresville High School tested their knowledge by joining Academic Teams.

The academic teams help these students in many ways depending on which of the five Academic teams they were members of.

The English team which was lead by Mr. Andy Marine, Math, was lead by Mrs. Kathy Bothwell and Fine Arts was lead by Mr. Jason Damron.

"I get to be with some of my best buds. Plus, my all time favorite teacher Mr. D-Dog Damron leads the team," said freshman Patty Ramsey a freshman and first year member of the Fine Arts Academic Team.

"Not only do I learn a lot, but it is fun to discuss literature with my friends," said junior Melissa Grubbs a first year member of the English Academic Team.

The Academic teams had an overall good year and hope to do even better in the coming years.

Singing A capella

Madrigal members perform in medieval attire.

By: Kayleigh Adcock

Madrigals were an advanced choir. Its members sang a-cappella for all songs. Their instructor, Mr. Jason Damron, used a pitch pipe to help tune their vocals.

Madrigals put on an annual dinner for the Mooresville community to attend. Throughout the dinner Madrigals members sang a variety of songs some of which are in foreign languages, put on skits, and enjoy a meal, which is served by Finesse members.

All the madrigal members wore medieval attire to perform in. Some chose to make their own customs or others used previous members customs. During the year they sung at Kroger, Victorian Christmas, churches and participated in a few competitions. They sang "Draw on sweet Night," Noel Cannon," Lo, how a Rose," and "Personent hodie" Madrigals are a fairly small choir compared to the ones that they had competed against in their competitions.

Most seem to enjoy the closeness that the 25-member choir had. "During the dinner it was a lot of fun to dress up but madrigals help you grow musically as well," said senior madrigals member Sam Phelps.

Senior Madrigal member Jacqueline Blessing shows off her musical talents.

Senior Lance Newton, Thad Miller and Erin Mosier partake in the Wagon Trail events with Madrigals.

Madrigals

2nd Row: Liz Bodle, Fletcher Jones, Thad Miller, Sam Godsey, Rachel McKinney, Dustin Russell, Sam Hunt, Andy Fortner
3rd Row: Callie Smith, Bryce Newton, Nichelle Sturm, Derek Gould, Jessie Walton, Kyle Kauffman
Many incoming freshmen chose choir as one of their high school electives. At Mooresville there are seven different types of choirs, Sensations, Genesis, Sound Image and the advanced choirs Millennium, Spotlighters, Finesse, and Madrigals. Mr. Jason Damron or Mrs. Elaine Mobeius instruct each choir.

All the choirs perform throughout the year. Some of the events they perform at are Wagon Trails Revue, music department concerts, and Spring Spectacular.

"Choir is a class in which you must be dedicated," said choir instructor Mr. Jason Damron, "you can’t just sit in the chair and do nothing to receive an A."

The choir students dedicate a lot into making sure that their choreography was done pat, their vocals crisp and near perfection as well as hoping the audience will enjoy themselves during the whole show.

All of the choirs perform a wide variety of songs, from intriguing ballads to a faster tempo song. Genesis performed, “Song for Peace,” “Give Me Wings,” and “My Lord What a Mornin.”

“I really enjoy singing and performing, I want to try and be in Spots,” said freshman Genesis member Brittany Ferrell.

Some choir participants might be in it for the reason that it is enjoyable.

“I joined because a lot of my friends were in it and because I needed the credit,” said freshman Genesis member Travis Edwards.

All choir members might have a slightly different reason for joining but in the end they’d probably say how much they enjoyed their time. “Choir is a fun way to perform and sing, it’s a really cool class,” said freshman Sadie Mullikin.
Far Left: freshman Caleb Barker and sophomore Laura Nelson sing during Sound Image’s balad.

Left: Rachel Mosier sings along during Sensations ballad.

Finesse

By: Emma Prosser

Grueling Practices, voice lessons, and being introduced at the Wagon Trails Revue by male yearbook staff members can only mean one group: Finesse.

Made up of 40 high school girls and directed by Mr. Jason Damron, Finesse worked very hard last year to get where they went.

"At the beginning of the year, I was scared to death of singing and dancing in front of, and even talking to, the 'scary upperclassmen' and I had heard all the horror stories about stuff they were going to do to us, but everybody's been so nice and including us in everything and I love all of them," said Freshman Stacie VanDyke.

Finesse had a good year; they went to Show Choir Nationals in Nashville, Tennessee at the Grand Ole Opry and then traveled home to state competition at Butler University.

Finesse finished third out of three at Nashville and eleventh out of fifteen at Butler in Clowes Memorial Hall.

The girls worked hard and it payed off, they accomplished a lot and leave much for the coming members too live up to.

"I love our "Hardware Store" song. It is a lot of fun and I guess weird Al wrote us a letter end he wanted to see our show. So that's pretty cool," said junior Haleigh Byrne.

Senior Brooke Burns bustin' a note.

Junior Brandi Prosser shows off.

Row 4: Caitlin Ruoff, Tonisha Pope, Lindsay Beckman, Katy Harris, Alyssa Calderhead, Lindsey Boles, Rachelle Rose, Christi Holder, Corey Himes.
Attention Mooresville High School: now presenting one of Mooresville's most competitive show choir - Spotlighters. Although Spotlighters did not win any grand championships they had fun along the way and grew together as a group of 41 people.

The Spotlighters have always been known as a competitive show choir, and last year they came close to living up to those expectations.

They traveled to Southmount and placed fourth out of ten, then they traveled to Mt. Zion and placed fifth. At Ben Davis they also placed fifth.

Pike was their next competition and they finished fourth, then came Nashville in spring where they placed second.

Two days after returning from Nashville came state and there they placed seventh.

“Getting second place in nationals at Nashville was amazing. Also, I enjoyed performing at the Grand Ole Opry,” said senior Derek Bailer.

“I tried my best to lead by example, but even the best leader is nothing without a motivated set of followers,” said senior Christopher Eiteljorge.

With a motivated set of followers Spotlighters accomplished a lot. They might not have earned any top three trophies but they flaunted Mooresville High School's integrity well.
Success & Uniting

Ties of friendship help bring home trophies

By: Kayleigh Adcock

As eight girls devoted countless hours to practicing their routines, it seems as if they might have gone unnoticed. Though in competition their hard work paid off as they brought MHS many trophies and titles it still seemed as if no one really knew what they were doing for the school.

Under the direction of Duane Williams and Dana Rahe, the girls successfully competed in nine contests and showcase concerts. Williams' has directed the color guard for five years as Rahe has done it for four. The color guard performed visuals to 'Broken Vow' which was performed by Josh Groban. In the past two years the girls' have placed in the top three at the state finals.

All of the girls had bonded on the endless hours that they had devoted towards making sure that their choreography, techniques, and equipment work were performed to perfection.

"All of the girls are like my sisters and it is going to be weird not seeing them every week," said junior Brandy Holland. With this season being many of the junior's last they have chosen to put even more hard work into their performances. "With this being my last year and some of the other girls, it has made us want to be successful even more then we usually do since it was our last chance to make something happen," said junior Chelsea Terry.

Musically Enhanced
Band helps foster responsibility

By: Kayleigh Adcock

The Mooresville High School band was a combination of both talented and musically enhanced students. They endured all of the strict guidelines that were enforced upon them. All band members had to follow very strict rules and abide by them all year long; such as attending all practices, correct posture, tone quality, correct notes, dynamics and silence throughout the class were all a must.

"During performances you had to sit correctly or they took points off," said junior Randy Pyror. "We went by the motto of, 'One band, One sound,' throughout all band related activities," said junior Brian Blevins.

Obviously band could not be described as a sit down, play your music and put your instrument away type of class.

"It was fun but hard work because you had to remember to do a lot," said freshmen James Manges, "but it paid off in the end."

It took a lot hard work, endless practices, and many disciplinary actions.

"Band is strict, but you learn responsibility that you can apply later on in life," said sophomore Whitney Bess.

Band

Jazz Band
Although this group of 43 students may seem small they create something huge for MHS, providing the school with wonderful music. This group is the MHS orchestra. These students work on many different types of music, ranging from the theme from "The Pirates of the Caribbean" and "The Phantom of the Opera" to more traditional pieces.

Though the practices may be long and some times repetitive students enjoy being with friends and playing instruments they love. Freshman Chris Greene said, "I enjoy being in a class with my friends." Freshman Holly Matlock agreed. "I joined orchestra because I really like music and I'm a huge orchadork so I'm in love with my violin."

The orchestra hosts several things including Octoboo, the Halloween concert, and the Italian Fest. The Italian Fest is a night where parents and fellow students can come and enjoy spaghetti and good music. The night is a chance to come and have fun with the sometimes-monotonous concert atmosphere.

The orchestra students also have the chance to attend the yearly orchestra trip.

After having been in orchestra for several years the group is generally close knit and full of stories and laughs. "I guess we have an 'orchestra family' so that's cool," said Matlock.

Sophomore Jamie Marx is sure not to miss a beat at the Italian Fest in Winter, the orchestra had a great turnout for the fest.

Orchestra
Francais
By: Emma Prosser

However the students of the Mooresville High School French club could tell you that there is much more to French.

Junior Lauryn Mosier said, "French club is just here for anyone to get an idea of French culture. Also, we just get together to have fun with French."

During their usual monthly meetings the students would get together and watch movies in French and play French games.

Stephanie Smith said," We had a petanque tournament. Petanque is a popular game in France. It is also just a fun way to hang out with friends who are also in French."

Freshman Sarah Potter said," We got to play batchi ball during one of the meetings even though one of the balls was leaking."

Students joined French club for hanging out and just having a good time as well as the opportunity to learn more French.

Smith said," I had fun in it last year so I decided to join again. Initially, one of my friends wanted me to come to a meeting with her. I didn't have anything to do, so I came and I joined. I love the crepe parties. I found the first joys of Nutella there. They're delicious."
Español, the other developing language of the United States of America is a way for Mooresville High School students to express themselves in a manner that many of us cannot understand, literally.

A language that hits a bit closer to home for most Mooresville High School students than French, many students chose to spice up their Spanish experience by participating in Spanish club.

Junior Heather Wilson said, "I love Spanish and the Spanish culture. I love surrounding myself with it."

The students participated in several different activities throughout the year.

The students hung out while still learning things about Spanish.

"We would eat out and watch movies in Spanish," said Junior Ryan Owen. "When we would eat out we would learn new words from the people that work there."

Once or twice the students even went to displays and events involving Spanish.

"My favorite part of Spanish Club is spending time with friends and being able to speak Español," said Junior Ashley Butler.

Students participated in Spanish club for several different reasons. Some students were in Spanish club for academic reasons.

Owen said, "I'm in Spanish club because it goes onto college applications."

Other students were Spanish club just to enjoy themselves and have a good time.

Junior Ryan Owen said, "I'm in Spanish club because I've been in it since freshman year and its fun. I also like the sponsors."

"I love all the fun talking in parties," Spanish, said Junior Josh Allison. "The people in Spanish club are a lot of fun," said Junior Cristin Johnson.

"The activities in and outside of school are a lot of fun, we got to eat at el rodeo," said Junior Adam Clark.
Future Farmers of America

By: Emma Prosser

"FFA makes a positive difference in the lives of students by developing their potential for premier leadership, personal growth and career success through agriculture education," said junior Heather Lashley, President of FFA.

Future Farmers of America met once a month after school. Mrs. Tonya Weis, sponsor of this group, taught her students about her interest in agriculture, horticulture, farm animals, and similar topics.

"The petting zoo is my favorite event FFA sponsored," Lashley said.

For four years, FFA veteran Morgan Breedlove headed the group and helped it expand throughout the school. This group of MHS students took a trip to the Kentucky derby this year and attended a lot of rodeos.

"We are a lot of fun, you get to experience many different contests, take trips, meet people, have a chance to win scholarships and awards," said Mrs. Weis, who herself had been in FFA since her freshman year of High School - 21 years.

Fellowship of Christian Athletes

Getting together to share a common interest to be in shape.

By: Emma Prosser

One Sunday each month, a group of MHS athletes and coaches got together at Coach Steve Hilligoss's house. This group of thirty to forty students shared a common interest for organized worship, prayer, and games.

"I have been a part of FCA for three years, I attend all the meetings, my favorite part is the games and activities," junior Kayla Smith said.

FCA played games such as angelball, whiffle ball, kickball, football and other games many youth groups play when they met.

The group also sang and worshiped together.

"They had a sing along and I was the only one who could keep a beat; it was really funny," senior Dan Whitman said.

Many of the coaches and sponsors loved to help the kids get to know God and enjoyed getting together to share their knowledge with the less experienced.

"Obviously helping people in their daily walk with God, but I love the relationships I have formed. Those will always be dear to me," said English teacher and baseball coach Mr. Aaron Thomas.

FCA passed out worksheets so that the students that attended could follow along on the worship and praise.

FCA was a great way to get together keep in shape and worship with friends for the sake of religion.

Key Club

Helps out the MHS Community

By: Kayleigh Adcock

Key club is a student service organization that is part of the Kiwanis Club. They simply looked for ways to service others and build a positive environment for the student community. Throughout the year they collected children’s books for Methodist Hospital, participated in Operation Holiday help, made goodie bags for the MHS academic teams, and made Valentine Cards for the faculty.

"We did a lot for Key Club, it was a lot of fun to help out," said junior Brian Blevins.
Changes to the S-10
Auto Club helps to restore a Chevy S-10

By: Kayleigh Adcock

As a group of five young men MHS students spent countless Monday nights pouring their energy into rebuilding a Chevy S-10, they also were enduring a hands-on experience as well. The Auto Club members held their meetings on Monday nights. Any MHS student was allowed the opportunity to help with the S-10. The members this year made a lot of improvement upon the S-10, which the previous Auto Club members had already put their effort into. They successfully rebuilt the engine, did body work on it by restoring it and also put a 350 engine in it. It has taken the members two years to come this far. The members believe that it took this long because it was hard to match up everyone's schedules.

"We didn't really get to accomplish as much as we wanted because no one could really meet at a certain time," said junior Bobby Taft. It seems as if things were not completed to the clubs hopes due to the fact that everyone had prior arrangements.

"We wanted to get a lot more done," said senior Luke Goebel, "but we did get some things done." As Auto Club completed the year completing a lot but not as much as they had hoped for in the start.

New Location, New Changes.
Prom Steering help with the prom changes

By: Kayleigh Adcock

With our 2004-2005 Prom being moved from its usual location at the Convention Center to the Murat, it gave the MHS' prom steering committee more to handle. To become apart of the Prom Steering Committee you must sell a minimum of 14 magazines for the magazine sells, which help to give benefits to the seniors for their prom. As a member of the committee they decided on a theme, helped to decorate the Murat Egyptian Ball Room and put together the prom favors. This year they spent countless hours helping out to make sure that the 2004-2005 prom went as planned.

"I think the prom was really put together this year," said junior Marie Angermier.
By: Amanda Heinsman
One of the many clubs at Mooresville High School, TSLA was a program directed for the leaders in our school. TSLA, or the Student Leadership Academy, chose students for the program through a course of activities and challenges leading up to high school.

Junior Corey Himes said, “It’s a leadership program. We have retreats and guest speakers. There is a bunch of different stuff that we do. One day we even did a ropes course.”

TSLA students were involved in several different conferences and activities throughout the year.

Mrs. Ann Phillips said, “In TSLA students participate in retreats and meetings throughout the year. Students come from across the country to listen to guest speakers and learn from the people around them.”

Junior Lauryn Mosier said, “We went to four or five different conferences and learned leadership techniques and how to organize events.”

The group gets to choose a different project for a certain amount of hours of community service and this past year they chose Project Prom.

Lauryn Mosier said, “For Project Prom we got a grant from Youth As Resources to help pay for the resources to take the special need kids to prom.”

Prep work for the night of dreams.

The limo ride to the prom.

“I like spending time with Corey,” said junior Lauryn Mosier.

“TSLA is fun because you get to meet other people from different schools,” said junior Corey Himes

Bryce Newton and Sam Hunt.

“I Like to meet new friends on the retreats,” said sophomore Adam Lawson.

TSLA members made Prom night for the Special-Ed students a night to remember.

Row 1: Bryce Newton, Corey Himes, Lauryn Mosier, Amanda Greene. Row 2: Chad Mayes, Adam Lawson, Derek Gould, Samantha Hunt

National Honor Society
Row 1: Allison Brown, Samantha Gum, Andrea True, Whitney True, Nicole Fenn, Jacqueline Blessing, Carol McGuire, Ashley Harpe, Nicole Riley.
Row 2: Erin Mosier, Scott Klinger, Katie Tutterrow, Valerie Young, Ashley Wilson, Michelle Lehr, Morgan Breedlove, Ryan Queen. Row 3: Mandy Hudgins, Sara Walton, Nick Oschman, Charles Hagee, Ally Ladd, Megan Shimonek, Sadee Rozzel. Row 4: Kelsie Wys, Sam Phelps, Kyle Mossbrucker, Leland Kinnett, Christopher Eiteljorge, Josh Jones, Kevin Farmer, Ben Esterline, Dan Whitman.

"NHS is not some bizarre secret society it’s hard work," said senior Allison Brown.

"I enjoyed working to help the nursing home the elderly touched my heart," said Senior Jacqueline Blessing.

"I started work at the club when I was 16," said senior Nicole Riley.

"My fondest memory of NHS is when I made a difference," said senior Erin Mosier.

"When I contribute, it makes me feel," said senior Sadee Rozzel.

"We put on a food drive at Marsh and had some good times dancing like Napolean Dynamite," said Senior Samantha Phelps.

Reminisced about that day with great pride.

"My fondest memory of NHS is the induction ceremony last year, it felt good to walk across the stage, as someone read my accomplishments," said Mosier.

"If you are a NHS member in 2006 try not to drop the pin when you initiate the 2007 year members." said senior Morgan Breedlove.

"I regularly volunteer: one of my biggest projects was to paint a large mural in Mrs. Brewsers room, I also show up to meetings on a regular basis." senior Allison Brown said.

Most of the students have different projects to work on to help better the community and put many hours in.

"I volunteer at least two hours a month, I do different projects to help better the community in different ways," Breedlove said..

The National Honor Society was a very difficult group to get into and many of the members will never forget the experience that they had with this group.

By: Emma Prosser

"I feel privileged because when I contribute to helping out within the community, it makes me feel as if I have made somewhat of a difference," said senior Sadee Rozzel.

National Honor Societies purpose was to reach out to outstanding scholars to help with the community, so that they could give back to society. "NHS is one of the best and most respected organizations at any High School. I was proud to be a part of it, and I have accomplished so many good things, such as the food drive, as a group this year," said senior Erin Mosier.

Every student was carefully chosen for NHS to well represent Mooresville High School within Mooresville's community.

Students of NHS were only allowed one year to participate, so that other students could join and get the same opportunities.

Many NHS members past and present would never forget the day that they where inducted into the group. Many
Clockwise: 1. Seniors Matt O’Neil and Jessie Riggo accepted a check with Ms. Eickhoff from State Farm Insurance 2. P.I. members held signs to display their messages 3. Ms. Gilly acknowledges the crowd during the boxing match 4. Ms. Kelly Crawford shows off her new title after the match 5. During the community day, Mr. VanWanzeele was the communities target in the dunk tank. 6. The math department cheered on Crawford during the boxing match 7. Senior Jessie Riggo talked to the audience during the P.I. press meeting 8. Seniors Jordy Smith and Alex Howard represented both Gilly and Crawford during the boxing match 9. Senior P.I. members Samantha Phelps and Heather Harris celebrated their victory in California.

Anything Can Happen!

Surprise!

Hard work pays off.

By: Kayleigh Adcock

Project Ignition was recognized by House Representative Ralph Foley who sponsored the House Resolution 95, which acknowledges the accomplishments of PL. It was passed April 28, 2005 and he presented the resolution to the High School May 3.
A rap for Seatbelt Pledge Week

Inside my mind it didn’t really unfold/ until I seen ya in that open casket with ya eyes closed/ showed up ya showing & ya funeral the next day/ didn’t dress up, you wouldn’t have it any other way/ I saw your family, heard their cries and theirs screams/ everybody had tears in their eyes/ rollin down like streams/ no one talked, words seemed lost in translation/ hugs were the only means of communication/ I stayed strong, didn’t weep/ as they laid ya down, six feet deep/ a lotta stuffs been goin on since you’ve been gone/ I thought people’d lighten up but that didn’t last long/ it didn’t last long/ it wasn’t even two weeks/ till I heard the news, another homie deceased/ why do we keep droppin like flies?/ I cried towards the sky but God never replied so../

Let’s take a minute ta sit and reminisce/ over all of the people that we miss/ gone, but not forgotten/ and if ya forgot’em then ya lower then down trotten/

Written and performed by senior Abdelrahman Hashem

"The water was so cold, and we must not have a very good baseball team because no one could hit the target," VanWanzeele joked. With a serious face he added, "I mean that in a sarcastic tone."

Project Ignition went out with a bang. They sponsored a boxing match between two of MHS’ teachers Ms. Kelly Crawford and Ms. Joyce Gilly. The convocation also included former Pacer players Darnell Hillman and Stuart Gray as guest speakers. They talked to the entire student body about the decisions they face while driving.

All of Project Ignition’s efforts paid off. The group was one of 10 schools invited to attend the National Youth Leadership Council’s March convention in Long Beach, California. There, they won “Best of Festival.” This national award came with a $10,000 grant to promote safe driving. It also included speaking opportunities across the country.

Overall, Project Ignition did a wonderful job of getting its message out to the student body in a variety of ways. They have helped all of us have fun but still yet learn about things that could be dangerous on the road.

Mooresville High School students faced a hardship during ’03-’04 when three students passed away. Not only did the students become affected, but the teachers felt heartbreak too.

Two of the three were in car accidents. English teacher, Sharon Eickhoff decided to try and influence the students to demonstrate better driving habits. The senior class and Mrs. Eickhoff gathered and proposed to get a grant for $2,000 from State Farm Insurance to help fund a new club. Which soon brought to life the motto ‘In a flash’, meaning that in a flash anything could happen.

Project Ignition sponsored many different things to help push the message of driving more safely. They sponsored a community day implementing better driving habits for all of Mooresville. A few of the activities were ‘drunk-goggles’ and students were given the opportunity to try and maneuver a remote controlled car. They also had a dunk tank with new assistant principal, Tim VanWanzeele as the target of the community’s destruction of the dunk tank.

"The water was so cold, and we must not have a very good baseball team because no one could hit the target," VanWanzeele joked. With a serious face he added, "I mean that in a sarcastic tone."

The craze begins under Mr. Jake Allen's Supervision

By: Kayleigh Adcock

As new students came into the high school they brought with them new ideas and interests. Sophomore Adam Quinn and his friends were in a craze over the game Dance Dance Revolution, also known as DDR.

After four months of attempting to find their teacher sponsor, who is needed to start a club here at MHS, they finally found their savior, Mr. Jake Allen, English, happily agreed to participate. Once Mr. Chuck Muston approved it, the DDR club was officially created.

"I was surprised to see how many people actually came to it. I did not think it would be this big," president Adam Quinn said.

"I felt that there was a need for the club and a huge interest in it," said Mr. Allen, when asked why he decided to become the teacher sponsor said.

Quinn and his friends did not believe that the craze would become this big. They only did it as a sort of competition to see who had the better skills. The craze had become very popular with the underclassmen; they planned to reserve an arcade to hold tournaments to see who has the better skills. Everyone that came to the DDR meetings were encouraged to participate, even their sponsor joined in.

"I have participated on a limited bases only but I am really bad," said Mr. Allen.

With the underclassmen bringing new interest into MHS next year we will have to wait to see if the DDR will be such a hit next year.

Education Center

EOC provides an alternative choice to the seven-hour day.

By: Kayleigh Adcock

The Education Opportunity Center provides a chance for students to obtain their diplomas when they might have struggled to get it at MHS. It also provided an alternative option of schooling for students with other necessary reasons to attend the EOC.

At the EOC, they had two different sessions in which the student could choose what times they wanted to attend.

Students found that one of the perks to going to the EOC was that they only had to attend classes for three hours.

"I love this place," EOC student Jesse Rhodes said, "I work, attend EOC for three hours and I like Mr. Dilisio."

Mr. Mike Dilisio has taught at the EOC for four years now. His reasons for teaching are rather simple.

"I thought that it would be interesting to teach in a non-traditional setting," said Mr. Dilisio. While the learning in environment may be different then here at MHS, the same lessons and techniques were learned.

Behind the Scenes
Pay no attention to the man behind the curtain.

By: Emma Prosser
Without an adult sponsor, led by students only.

The Spring Play, the Christmas play, all the choir shows and every thing that happened on stage throughout the year.

Behind the scenes and working there fannies off, the auditorium crew puts together all the shows and controls everything that goes on backstage.

The auditorium crew was run by Austin Roberts. The Auditorium crew was run by an adult at the beginning of the year, however, she could not make the meetings due to her day job so Austin took over.

"It is a big mess, like ants running all over an apple," said sophomore Katie Kirkendall.

"It makes me sad because I wonder if it will continue in the coming years," said sophomore Amber Smith.

"We locked Austin out of the sound and light booth one time it was great," said Kirkendall.

Although having to answer to a fellow peer the auditorium crew did a good job showing up and keeping things get done.

Sophomores Chris Woods, Ricky White, Nick Vasquez and Senior Matt Smith act out a scene for the rest of the Drama Club members.

By: Emma Prosser

Students used everything from painting, to drawing, to clay statues, and brass mini structures.

Headed by Mr. Amrhein and created by the students, the Art Club has a lot of fun trying their absolute hardest to create a masterpiece too top everyone else.

"It was freaking awesome making banners for the Old Settlers Parade and riding in Mrs. Wehmeier's golf cart," said senior Derek Burton.

"The parade was cool because we got to throw candy at the little kids. they were so cute," said junior Randy Pryor.

The Art Club met once every three weeks at the beginning of the year and then reduced that to once a month.

The art club designed banners and made cartoons plus any other things throughout the year.

---

**In the Spotlight**

By: Emma Prosser

Downstage, stage right and left, faking out, getting into character, no matter what the show must go on.

One Wednesday a month a group of MHS students get together to practice their ability to act and to fool the audience.

"I love acting because its a chance to be another person. It's like a runner's high, or being hypnotized," said senior Heather Bartram.

Though some may consider acting to be a hard career for those who love it, the hard work and effort make it even more desirable.

"The Drama Club is like a social group in the high school where they have a stage that they can get on and practice improvisation," said Bartram.

"My favorite part of Drama Club is that we just hang out, play games and eat food," said sophomore Ashley Vance.

The Drama Club was headed by Mrs. Melanie Kassen who taught speech classes and drama classes.
The Clubs worked diligently to get a lot accomplished at Mooresville High School last year. The Clubs set high standards for the incoming classes of the following years to have something to live up to. They worked hard to bring in new activities for the school so that everyone's year would be one to remember.
All great things must come to an end, which concludes the story of each student's high school career. Making friends, sharing memories, and inevitably having to say goodbye was what all students had to face. Ponder over the best movie ever and how it should never end, but then when the laughter stops and crying begins, in rolls the credits.

220 Wagon Trails; Feature Presentation
Megan Shimonek
What a blessing in my life you are. I couldn't be more proud of everything you have accomplished. You truly are a wonderful, kind person. May God bless your future and all that it holds.

I Love You,
Mom

Matt Smith
We are so proud of the man that you have become. We couldn't ask for more. You will be great at whatever you do. Have fun at college. We will miss you.

Love, Mom and Jerry

James Raymond Hannah
Son, you have brought a light to our world that we will cherish forever. May you always soar, among others, as the eagle you are.

Love, Mom and Dad

Sarah Coley
We are so proud of you! Good luck in college! We are going to miss you!

Love,
Your Family

Julie Bullard
The future is yours. We are so proud of you.

Love, Mom and Dad

Kevin Farmer
Seems like only yesterday that you were leaning against this tree. You have become a very fine young man. We are very proud of you. Keep your chin up and your two wheels rolling, and you will go far in life.

Love, Mom and Dad
Zachary James Wathen
As you prepare to begin a new journey, plan your path but let God direct your steps. Cross the bridge to your dreams and hopes of the blessed future promised.
Love always, Mom, Dad, Abe, Lyndia, and Rachel

Nicole Riley
There is a time to let things happen, and a time to make things happen. Your time is now. Be bold and daring.... In your own way, and you will go far.
Your Loving Family

Whitney Cooper
You have the drive and determination to succeed at everything you choose to do in life, and you also know how to stop and smell the roses along the way! I love you. Your not only my daughter, but your my best friend.
Love, Mom

Jared Hilligoss
You have always been one to give your all for what you believe in. Continue to do that, and you will make a difference in the world! May God bless your life in abundant ways.
Love, Dad, Mom, and Kristin

Jessica McCauley
As you walk the path of life. Always make good choices. Keep God in your life and look for the positive in every situation. We are very proud of you, and all that you have accomplished.
Love, Dad and Mom

Erin Moser
You have always been our "Good Baby". We are very proud of you, and we will love you forever! We hope FGCU will be great for you.
Mom, Dad, and Kyle
Megan A-li Taylor

Some did say roses are red and violets are blue. There were many days we weren't sure they knew. Then one day as time did pass, she grew up, a real beauty at last.

Mom and Dad

Jason S. Alsup II

Seems like only yesterday you went off to kindergarten. Now you are all grown up and independent. We want you to know how proud we are of you, and all you have accomplished. Don't stop there. Your life's journey has just begun. Good luck, have fun, and be safe.

Love, Mom and Dad

Shawn Mathew Keown

I won't always agree with you, but I will always Love you, and be there for you.

Love, Mom

Michelle K. Lehr

Sis, you are our pride and joy. Work hard in whatever you do. With your honesty and attitude you can change the world. We love you.

Mom and Dad

Jayme Lynn Beard

What can we say? We are so proud of you. You have worked hard and we enjoyed seeing how much you have grown up. You have become a wonderful person. We love you very much!

Dad, Mom, and Jessie

Thomas Bothwell

We Love You!

Mom, Dad, Josie, and Jimmy
We have watched you grow into a beautiful young woman. We are so proud of you! Keep it going, and we have got your back. We love you so much.

Your Dad
Your favorite step mom
your sisters-Olivia and Cheyenne

Ma Maw would be so proud. She is and always will be watching over you. It is your turn to grab your dreams. We are very proud of you, and we love you very much.

Mom and Olivia

"Wake up Daniel"! It's time to graduate! We are so proud of you for going the distance. God bless you as you follow his will for your life.

Love,
Mom, Dad, Elizabeth, and Sarah

You have grown from the sweet little boy into a wonderful young man. We will always be there for you. We are very proud of you, and we love you very much.

Love, Mom and Pat

Congratulations! We are so proud of you. Good luck at ISU.

Love, Mom and Todd

I'm so proud of you. You have turned into a beautiful young lady. You will always be "Trish the Dish" to me.

I Love You,

Dad
Derek Mong

What can we say - where did the past 18 years go? We are so proud of who you are and where you have been. Always keep striving to do your best and keep God first.

Love, Mom & Dad

Bridget Taylor

You have so many special gifts. Follow your dreams. I will be here for you always.

Love, Mom

Mary Elizabeth Myers

You have been a ray of sunshine in our lives. We are so proud of you and all you have accomplished. "I will sing to the Lord all my life; I will sing Praise to my God as long as I live". Share the gift. We love you.

Daddy, Mommy, Leah, and Sarah

Chuck Wilson

It has been fun being your little sister the past seventeen years(well not all of the time-LOL). Good luck in everything, and I hope we always stay close!

Love Always, Heather

Brad Coffman

It seems like yesterday you were our little boy. Look at you now. We are very proud of you.

Love, Mom and Dad

Charlie Wilson

It has been wonderful watching you grow up from that little boy we brought home from the hospital. We have enjoyed seeing the man that you have become, and thank God every day that he gave us such a great son. Good luck in all that you do!!

Love, Mom and Dad
Katie Imhoff

Your entire family is so proud of you. Congrats on all you have accomplished.

Love, Mom, Dad, and Suz

I can do all things through Christ who strengthens me. Phil 4:13

Katie Tutterrow

Remember the paper you once wrote about the past, present, and future? Your future is just begging. It's full of promise. Be true to yourself and be patient, and you will be fulfilled! We are very proud of you.

Love,
Mom and Dad

Ally Ladd

We are so proud of your accomplishments. Good luck at whatever you do. Do with all your heart, and know that we love you and support you.

Mom and Dad

Chris Ray Eiteljorge

You have made us so proud. We just want the best for you in everything you do. We love you.

Mom and Dad

Allison Quinn

Pumpkin, we love you. We are so proud of you. Congratulations.

Love,
Mom, Dad, and Adam

Ashlie Lair

You stole our hearts the day you were born, and that is where you will always be. May your guardian angel continue to watch over you, and keep you safe. We are truly blessed to have you for our daughter. Always believe in yourself! We are very proud of you, and we love you very much.

Love,
Dad, Mom, and Breanna
Stephanie Dildine
Thank you for being such a wonderful daughter. Your so strong, good, and caring. You are very loved. May God richly bless you now and always.
Love, Mom, Dad, Erica, and Taryn

Melissa Fears
"You are my sunshine." Set your goals, and aim high. Stretch your arms up, and reach for the sky. The only limits are what you choose. We love you.
Mom, Dad, and Michelle

Nicole Fenn
Congratulations on all your hard work and accomplishments. You make the world a brighter place!
We love you,
Mom and Dad

Ashley Wilson
What a precious child you are. We are so very proud of you. Never a dull moment. You have always kept us going. That's okay it has been fun. Stay focused and on track, and you will go far.
Love,
Mom and Dad

Kassidy Turner & Amanda Hudgins
"When days go by, I can feel them flying like a hand out the window in the wind". KU'04
You have grown from two wonderful little girls to two wonderful young women. God blessed us with you, and blessed you with each other.
Love,
Mom and Dad

Congratulations
to the members
of the class of
2005
for graduating from
Mooresville High
School. Best wishes for
success and happiness as
you take the next step.

It was a whimsical year of emotions and actions. Many people found the year to be adventurous, comical, and a bit dramatic. This formula of categories created a one-of-a-kind school year never to be forgotten, sort of like one's favorite movie.

MHS had many happy endings, much like those in the movies, but without the Hollywood touch. The Pioneer football team celebrated a successful season, with an undefeated record. The girls soccer team was also successful, losing to Center Grove in Sectionals by only one point.

Other groups in the school were also victorious. In its inaugural year, Project Ignition placed first in the national competition for the service-learning safe driving project, In a Flash. The group of seniors traveled to Long Beach, California where they received the check for $10,000. The show choirs traveled to Nashville, Tenn. where Spotlighters placed second out of eight choirs competing. Colorguard placed fourth in the nation, and Mrs. Ann Phillips, English, the 2003-2004 Hope Award winner went on to be named on of the top 10 teachers in the State of Indiana.

Cramming, crying, and collecting memories were a few of the actions that students at MHS did when the year came to an unforgettable end.
The 2005 Wagon Trails, Volume 60 was created by a student staff and printed by Herff Jones Publishing Company, 6015 Travis Lane, Shawnee Mission, KS 66202. The publishing consultant was Cathy Wines, and the customer service representative was Debbie Thomas. Underclass photos were taken by David Coy of Indiana School Pictures. Senior photos were taken by Studio One. All club photos were taken by David Coy of Indiana School Pictures. Indiana School Pictures also took all sports team photos. The book was $45 to $50. The press run was 850. The book was produced on 11 PCs using Pagemaker 6.5, Microsoft Word and Adobe Photoshop.

The book was 9x12 trim size. Bordeaux special 80# paper was standard for all pages. The cover page base material was permacote with customer supplied artwork. The colors were HJ Litho Ink Color and a lamination gloss was applied as a protective coating. Herff Jones printed all one and two-line Name Plates on silver self-adhesive strips. The 2005 World Yearbook was supplied by Herff Jones and sewn in at the end of the yearbook. Including the world yearbook, the book totaled 256 pages.

All advertisements were sold by the staff, designed by the businesses or the staff, and placed in the book only if payment was received. Meijer processed film and prints for the yearbook.

The yearbook staff thanks the following for their help: Meijer, Indiana School Pictures, Studio One, Cathy Wines, Debbie Thomas, the administration, the student body, the teachers, Diana and Clark Hadley, Sharon Eickhoff, Jerry Weber, Michelle Shea, Candice Due, Dr. Phil Wright, Dale Graves, Sherry Stewart and our student teacher, Megan McLeod.
A magnitude 9.0 earthquake in the Indian Ocean sends a 500 mph tsunami crashing onto the shores of 12 nations, killing more than 225,000 people and causing vast destruction.

Britain's Queen Elizabeth II announces the engagement of her son Prince Charles to his long-time love Camilla Parker Bowles. NASA's Messenger begins a 5-billion-mile journey to Mercury. Vioxx, one of several arthritis drugs linked to an increased risk of heart attack and stroke, is recalled. Billions of 17-year cicadas emerge in the Midwest and Eastern United States.
More than 700 people are wounded and 323 hostages killed when Chechen rebels seize a Russian school. The standoff lasted two days.

The world mourns the death of 93-year-old Ronald Reagan, the 40th U.S. president, credited with ending the Cold War.

Filipino conjoined twins Carl and Clarence Aquirre, 2, are successfully separated following 10 months of surgical procedures and a final 20-hour operation.

A jury convicts Scott Peterson on two counts of murder and sentences him to death.

Hamid Karzai is the first democratically elected leader of Afghanistan.
